WILSON TAKES SENATORS INTO HIS CONFIDENCE

President Tells G. O. P. Solons and Others of Versailles Negotiations.

Washington, July 18 — President Wilson continued his conferences with Republican senators today, discussing the peace treaty and the league of nations covenant at length with Senators Kenyon of Iowa, and Kellogg of Minnesota. Later he had engagements with Senators Capper of Kansas and McNary of Oregon.

KENYON AND KELLOGG "MUM"

Neither Senator Kenyon nor Senator Kellogg would discuss their conversations with the president, but as he went to the White House Senator Kenyon said he intended to ask about a statement of Senator Swanson Democrat, Virginia, in the Senate recently that the United States would withdraw from the league whenever it desired, adding that this was a very important point which would clarify the situation.

While the president was conferring with the senators, the Foreign Relations committee continued its sessions for the reading of the treaty text Progress was slow The reading may be completed by the end of the week

The conversations were expected to follow the lines of those yesterday when Mr Wilson conferred seperately with Senators Colt, Rhode Island; Nelson, Minnesota, and McCumber North Dakota, all Republicans

FIRST OF LONG SERIES

The conferences yesterday and those for today were the first of a long series of similar meetings Mr Wilson is arranging with members of the opposition party in the Senate whom he proposes to take into his confidence concerning the conduct of the peace negotiations at Versailles

So far he has called in only those senators who have expressed themselves in favor of the treaty or who have not made a public declaration either for or against, but later he is expected to confer with virtually every Republican senator, including those who have most bitterly opposed ratification

NO SPEECHES TODAY

No prepared speeches were expected to be delivered in the Senate today and it generally was believed that after a brief session the body would adjourn until Monday The Foreign Relations committee planned to continue its section by section reading of the treaty today, but no action was expected to be taken on any important feature of the fight.

No word had come from the president as to his decision with regard to the recent request of the Senate for what is known as the "American draft" of the league of nations covenant. Secretary Tumulty said he had not discussed the matter with Mr Wilson and those who saw the president yesterday declared the subject had not been mentioned during their conversations.

MUST HELP RUSSIA SAYS CHURCHILL

London, Thursday, July 17.—"Russia at the present moment is the keynote of the future peace of the world and the re-lifting of that country must be the first duty of the league of nations" said Colonel Winston Spencer Churchill, secretary of state for war, in an address at the British-Russian club dinner tonight.

"If the whole of Russia and its resources fall into the hands of Lenine and Trotzky, the whole power of the Bolsheviki forces will be thrown against these little states which have been promised the protection of the league of nations If the Bolsheviki forces prevail in Russia those little states, nay, Russia, itself, will fall into the hands of Germany," he continued

Mr Churchill defended the action o the allies in sending troops to Russia and said if the five great powers had been able to act in concert, things would not be as they are there" He declared that more than 300,000 Bolsheviki were being held in check by the allies and "if the British government contributed in any way toward that result, I, for one, rejoice."

Mr Churchill predicted an entire change in the situation will in a fortnight, but did not explain what it might be.

WOULD GIVE TROOPS REST FROM KHAKI

Boston, July 18 — Major General Clarence R Edwards of the northeastern department and former commander of the 26th (Yankee) division, had asked the war department that soldiers stationed at the coast defenses be allowed to wear civilian clothes while on pass or furlough Investigation has disclosed, he says, that pre-war prejudice against the army uniform is apparent .

PLAN TO IMPROVE FOREIGN EXCHANGE

STUDY REPORT ON GERMAN COLONIES

Paris, Thursday, July 17—The committe of the chamber of deputies, which is considering the treaty of peace today took up a report on German colonies. This report says that the return on Togoland and the Kamerun to France only revives the prior rights of France from a political viewpoint It adds, however, that "a recent accord between France and Great Britain fixes the limitations and rights of each in those colonies"

Premier Clemenceau in appearing before the committee, declared that the security of France was guaranteed by the treaty of peace and the treaties between France and the United States and France and Great Britain M Clemenceau reviewed the proceedings in the peace conference regarding the left bank of the Rhine, filing with the committee a series of documents on the subject He recalled that in the opinion of Marshal Foch the bridgeheads of the Rhine should be established and occupied permanently and said that he had obliged to choose between that protection which France alone would have been obliged to assure and the protection afforded by the American and British treaties

GERMANS TRY TO TRADE WITH RUSSIA

London, July 18 —The German government is believed to be trying to establish trade relations with soviet Russia and a German mission has visited Russia or is about to do so, Cecil B Harmsworth, under-secretary of state for foreign affairs, told the house of commons

BRITISH LOAN IS DISAPPOINTING

London, July 18—The Victory loan campaign is disappointing, in the opinion of several morning newspapers Others however, accept the statement of J Austen Chamberlain, chancellor of the exchequer that "in view of the circumstances the result is very satisfactory."

The Laborite Herald insists that the country's finances must be rehabilitated through a levy on capital The Daily News does not take an optimistic view of the situation, but says "If the disappointing result of the Victory loan persuaded the government that the stage of easy borrowing is over and that the financial demand for the future will in some way have to be met out of income and capital and not by mortgaging posterity it will not be too dearly bought

AMERICANS BOLSTER RUSSIAN PRISONERS

Paris, June 31 (By Mail)—Half a million Russians in Germany who formerly were prisoners of war have been lifted out of despondency within the last four months, partly by a course of training in American ideals American sports and American spirit, said Major James A Babbitt, of Philadelphia, when he returned recently from Germany on his way to the United States

Major Babbitt is a professor in Haverford college and a member of the American Football Rules' committee He was chief of the Bureau of Medical Surgical Relief for the American Red Cross in Germany and visited nearly all the camps where Russian prisoners were interned.

"We found the Russian war prisoners in a state of complete lassitude, mentally and physically," he said "They had spent four years in the neglect and misery of German internment camps It was enough to break the strongest man's spirit. Their own country had forgotten them and no word had come from their relatives or friends There was no future in Germany nor hope of anything better in their own country. Hundreds of Thousands of Russians who had fought valiantly for the allied cause were slowly dying from depression mental inactivity and physical malnutrition

We put them to school like children. Athletic games were introduced into the camps and these stimulated the prisoners physically while motion pictures and other mental recreations brightened their dull hours Their hospitals were provided with every needed medical and surgical requisite. The camps were organized under the command of the American army personnel They began to take on a new physical aspect and the men showed signs of returning life and courage Although they at first regarded us with suspicion, this was soon changed and they looked upon us as friends. They formed camp committees which brought their needs, grievances and fears to our attention.

MOST ARMY MEN DROP INSURANCE

Washington, July 18. — Approximately three-fourths of the four million officers and enlisted men in the military forces who secured government insurance policies through the war risk insurance bureau during the war have failed to continue their payments, it was disclosed during the meetings of the Bureau's Advisory committee of thirteen, headed by Charles Evans Hughes, which closed last night.

Failure of many policy holders to continue payments and convert their term policies was attributed largely to the fact that the bureau is unable to communicate with them as 30 per cent of the addresses of discharged service men are incorrect.

To secure constant personal contact with policy holders, the committee recommended that the bureau establish local representatives in each state or in such districts as it may seem advisable to divide the country

The committee in concluding its report, stressed the importance of legislative provision for placing the organization of the bureau on a permanent basis.

"HARD BOILED" SMITH GETS GOOD BEATING THAT WAS DUE HIM

Washington, July 18 — Army officers composing the court martial that tried Lieut "Hard Boiled" Smith and Lieut Mason, formerly in charge of American military prisoners in France, where soldiers are alleged to have been beaten mercilessly, will be called before a special house war investigation committee within a few days to explain the sentences they imposed, according to Representative Dallinger, Republican from Massachusetts

Other witnesses to be called at that time, Mr. Dallinger declared in a prepared statement, "will testify that the trial of these two men was a joke" Both Smith and Mason were given only sentences of dishonorable discharge, the statement asserted, despite testimony of their brutality.

'Hard Boiled' Smith arrived at Fort Jay, N Y., the other day," Dallinger declared, 'and was almost at once seen by some of his victims there serving sentence. He was recognized by them and before the guards arrived he was beaten to a pulp and I believe he is now in the hospital recovering from a punishment meted out to him by these very men whom he had himself tortured"

QUESTION FORD ON EDITORIAL

Merciless Grilling by Chicago Attorney Is Continued.

Mount Clemens, Mich., July 18.—The heart of Henry Ford's libel suit against the Chicago Daily Tribune was reached today when Attorney Elliott G. Stevenson, representing Tribune, began to question Mr. Ford regarding the alleged libelous editorial, headed "Ford is an Anarchist," published in the Tribune June 23, 1916.

CALLS QUESTIONING BRUTAL

Attorney Alfred Lucking and Alfred G. Murphy peppered the examination with objections on behalf of the plaintiff, and Mr. Lucking characterized the examination in the course of which Mr. Stevenson attempted again to get the witness to admit that he was "an ignorant idealist," as brutal and particularly distressing to so modest a man as Mr. Ford

Court was in session nearly two hours before Mr. Ford was recalled, the time being consumed in the reading of portions of the transcript of the examination of General Erasmus Weaver, before the military affairs committee of congress in 1916, and with other matter collateral to the case

Mr. Ford finally stated that the record would show what he said about being an "ignorant idealist." Attorney Stevenson then called his attention to his previous testimony in which he admitted ignorance of most things about the army and navy.

THIRD OF RECORD OBJECTIONS.

Mount Clemens, Mich., July 18.—A statement that one-third of the record of the testimony of Henry Ford in the latter's libel suit against the Chicago Tribune has been taken up by the objections of counsel for Mr. Ford and the resultant arguments were made to Judge Tucker at the opening of court today. Alfred Lucking, senior counsel for Mr. Ford, took an exception, remarking that the same could be said of Tribune counsel when witnesses for the plaintiff were being heard.

FIFTH DAY ON STAND.

Mr Ford took the stand for his fifth day as a witness.

Before he had been asked a question he was temporarily excused and Weymouth Kirkland, Tribune lawyer, took the stand and was examined by his colleague, Elliott G. Stevenson. Both lawyers held copies of the report of testimony of General Weaver on coast defense before the military affairs committee of congress in 1916 The purpose was to refute the statement made in Mr. Ford's anti-preparedness advertisement quoting General Weaver said that the coast coast defense system was adequate.

The Tribune lawyer, by following Gen. Weaver's testimony, further than the advertisement did, showed that Gneeral Weaver said that the coast guns were models of 1890 and would be unable to return the fire of modern naval guns.

Reading from the Weaver testimony occupied an hour and a half and Mr. Ford gained further respite by arguments over admissibility of a deposition by John Reed, the magazine writer in New York. An article by Reed, referring to Mr. Ford as an industrial "miracle maker," was read to the jury yesterday. Counsel for the Tribune according to Attorney Stevenson, were assured by the writer that he would come here to testify, but later declined.

Counsel for the Tribune, after the case had gone on hearing, took Mr. Reed's deposition.

RESUME QUIZ

Judge Tucker reserved decision and Mr. Ford resumed his testimony under interrogation by Attorney Stevenson.

"You heard what General Weaver said. Mr. Delavigne made an important departure from that, didn't he, in writing your advertisement?"

"I am not a competent judge," answered the witness.

Attorney Alfred G. Murphy, for the plaintiff, objected and quoted General Weaver as stating that old guns were being remounted to have a longer range.

"Do you know how long it takes to mount a gun, Mr. Ford?" asked Mr. Stevenson.

"No."

"It takes a long time?"

"Depends on who does the mounting, I guess."

"You didn't print the truth about it?"

"I employed Theodore Delavigne and told him to get the facts and to stick to the facts. If he omitted things I am responsible."

"Then you want this jury and the world to understand that you published mis-statements broadcast and didn't know what was in it; whether true or false?"

"I told him to get the facts."

"Are you charging Mr. Delavigne with dishonesty?"

"No."

"You heard what was said about a mobile force being necessary to protect coast defenses from attack in the rear?"

"Yes."

"What do you understand by a 'mobile army?'"

"An army mobilized," said the manufacturer, picking at the crease in his trousers.

Counsel for Mr. Ford objected as usual when the latter is asked the meaning of words.

"It is an army large or small, which can move quickly," explained Mr. Stevenson.

"I don't know much about militarism," added the witness.

The Tribune next came for the first time directly to the heart of the suit, the Tribune editorial of June 23, 1916, which was headed "Ford is an Anarchist."

ASKED FOR MORE DEFINITION.

"What is a headline" asked Mr. Stevenson.

"It shows what is in the body of an article under it."

Mr. Ford yesterday testified that an anarchist is a bomb thrower, or one who overturns government. Mr. Stevenson then read the text of the editorial.

"Nothing there about bomb throwing, is there, Mr. Ford?"

"No, but the headline——."

"But you said that a headline shows what is in the body of the article, Mr. Ford."

AN ARGUMENT.

This precipitated an argument in the course of which Attorney Murphy contended that it was the contention of the plaintiff that the headline was libelous standing by itself, for the very reason that the text of the article related nothing anarchistic of Mr. Ford.

"It seems to me, your honor," said Mr. Stevenson, "that we have a right to know what the plaintiff himself thinks—just how he thinks he has been injured."

READS ONLY HEADLINES.

"I hardly ever read anything but the headlines," put in Mr. Ford.

Judge Tucker took up a law book and Mr. Stevenson went on:

"You will hardly deny the charge that you are an ignorant idealist, Mr. Ford? You said so twice yesterday."

"Well, Mr. Stevenson, you can get me to say black is white," smiled the witness.

"Why, Mr. Ford, haven't I been fair with you?"

"Yes."

Mr. Lucking protested:

"This is brutal to a fine man; a modest man who hates to appear in public, who does not wish to be here. I submit that it is brutal."

"You don't think that Mr. Ford, do you?" asked Mr. Stevenson, "I'm not brutal, am I?"

Mr. Ford smiled.

FORD ONLY SMILES.

"He is talking through his hat, isn't he?" continued the Tribune lawer. witness smiled again, and Judge Tucker reminded Mr. Lucking that Mr. Ford could expect no different treatment from an other witness.

"But he has had different treatment so far as I am concerned," said Attorney Stevenson. "I never in my life treated a witness with so much consideration."

BRYAN OPPOSES FRENCH ALLIANCE

Lincoln, Neb., July 18.—In a statement to the Associated Press, W. J. Bryan while espousing the league of nations condemns any alliance with France. Mr Bryan insists it would be a league within a league, to the discredit of both. He says:

"An alliance with France is defended on the ground that it is necessary for her protection. The league of nations gives France the same protection it does other nations. A league within the league would not only discredit the league and proclaim our lack of faith in it, but it would be a destructive force. It would disintegrate the league of nations and disappoint the hope it has aroused France might not mourn for she was opposed to the league from the beginning but America would mourn and the whole world would suffer.

"The president announced at Manchester that our country was not interested in a league unless it included the whole world. He was right then and the people have not changed That sentiment ought to cause the defeat of the proposed alliance by an overwhelming majority.

"Ratify the league of nations. Defeat the proposed alliance. Consistency requires that those who favor the league should oppose the alliance They represent opposite policies."

BELA KUN IS OUSTED

Hungarian Troops to Budapest—Disorder Reported.

[By The Associated Press.]

Paris, July 18.—Bela Kun, head of the Hungarian communist government has been ousted, according to dispatches from reliable sources in Vienna received by the peace conference.

Troops returning from the Czech front were reported entering Budapest in large numbers. Budapest was in disorder.

Herr Boehm and Herr Lander have taken over control of the communist government.

RECENT BREAKS.

Bela Kun was reported in a Budapest dispatch received Wednesday to have broken with nearly all the Socialist leaders. Officers of the Soviet army were said to be deserting at every opportunity. The communist leader was quoted as having told his minister of education that he was tried of trying to ride Socialist and Communist horses at the same time.

Herr Boehm, who has been commander of the Hungarian armies, was reported in prison, in a dispatch from Vienna Wednesday. This dispatch also stated that Bela Kun was seeking some excuse to leave Hungary and that he would not return.

Bela Kun assumed the post of foreign commissary or minister of foreign affairs in the Hungarian soviet government which succeeded the republican government set up by Count Karolyi. He took office in March, 1919 and immediately got in touch with the heads of the Russian Soviet government. He was considered the founder of the communist party in Hungary.

The council of five at Paris July 5 reached the conclusion, it was stated, that it was impossible to make peace with Bela Kun's government. Consequently it was considered necessary to maintain the blockade.

Recent events in Budapest have presaged trouble. An attack was made on the Soviet headquarters by three monitors in the Danube, aided by land forces, on July 2. As a result of this uprising 40 youths from the Budapest military academy and three officers were hanged Bela Kun then issued a proclamation stating:

The general found a company of the grenadier guards, with its band drawn up in the yard. He inspected the guards and then entered the hall and was conducted to the dias, where he was greeted by the lord mayor and lady mayoress.

BIG BUILDING STRIKE STARTS

Over 100,000 Chicago Building Trade Workers Are Idle.

Chicago, July 18.—Building operations in Chicago are at a standstill today and more than 100,000 workmen are idle as a result of a lockout ordered by the executive committee of the building construction employers' association of Chicago.

BUILDERS' LOCKED OUT.

Yesterday the organizations which includes in its membership every building contractor in the city, issued an ultimatum declaring that unless the members of the carpenters, lathers, iron workers and other unions who have been on strike for several weeks, returned to work by 5 o'clock this morning and agreed to abide by the provisions of their joint trade wage contracts which run until 1921, the builders would indefinitely suspend all operations.

IGNORE THREAT.

The strikers ignored the threat and refused to return to work as requested and early in the day the executive committee of the building employers sent a letter by special messenger to every contractor with instructions to immediately stop work of every character.

CARPENTERS DEMAND $1 HOUR.

The decision to declare a lockout came as a climax to a series of strikes in the building industry and was precipitated by the walkout of the carpenters, who are charged by the employers with violating their agreement and refusing to negotiate a compromise. They are holding out for $1 an hour.

The last complete shutdown of building operations occurred here in November, 1899 and lasted thirteen months.

MACEDONIANS ARE FACING STARVATION

(Correspondence of Associated Press.)

Kavadar, Macedonia, June 10.—Without food, without clothing, without medical attention, with hardly any growing crops promising relief when the harvest comes, 15,000 refugees of this district have returned and are desperately clinging to the little mountain farms which are their patrimony. Rather than abandon them they will die in the ruins and caves which today only half shield them from the elements.

To this field the Balkan Commission of the American Red Cross has sent Captain R. M. Blakely, U. S. A. Medical Corps, of New Orleans, La., with five nurses and several carloads of supplies. Villages within a radius of fifty kilometers are now being served by the "Amerikanska." Medicines are given at the dispensary, which never charges a dinar for its services or for flour, clothing and other supplies from the canteen. What that means to a people who have come back from exile, after three years of deprivation of the necessities of life, to find their homes in ruins can best be appreciated here on the spot.

The station here at Kavadar is but one of hundreds of similar stations in Serbia, Albania, Montenegro, Rumania, Herzegovina and Greece which the Balkan Commission of the American Red Cross has established.

The town hall is used for an infirmary, and empty house for a food and clothing warehouse and an old mill has been made into a bakery. The dispensary is crowded from morning to night. Some days 250 patients are treated. The maimed and stricken come from a radius of thirty miles. One patient was brought in on an oxcart after an unbroken journey of four days. Tuberculosis in every form, anaemia, and other ills that follow in the wake of underfeeding and poor housing have affected a third of the population.

The task facing the Red Cross relief agencies is a heroic one.

"Before I unchain the dog, answer me this: Are you one of these here Bolsheviki?"

"No, madame, I'm just a plain hobo or bum."

"In that case, here's a piece of pie."

JUST ONE FRILL AFTER ANOTHER

BY BIDDY BRYAN.

For the little miss of nine years life in such a frock as this is one frill after another—the acme of simple, but billowy simplicity. Sleeves and all are composed of overlapping ruffles of fine white cotton net all picot-edged, and guiltless of even a ribbon sash. Milady's little bonnet is of white crin, slashed to admit the loopings of a rose-edged blue satin ribbon bow.

FOR SUMMER SUPPERS

BY BIDDY BYE.

Something "different" to have for supper or lunch—is the plea of the summertime housekeeper, worried by her inability to interest hot weather appetites. Here are three, new, cooling and attractive desserts.

Coffee Tapioca Pudding—

Strain 2 cupfuls of hot, clear coffee, and add to it 1-2 cupful of minute tapioca. Cook slowly in a double boiler for half an hour and when the tapioca is tender add 1-2 cupful of sugar, and mold and chill in glass cups. Serve with whipped cream.

Honey Ivory Cream—

Mix 2 cupfuls of sweet milk with 1 cupful of cream, and warm them together with 1-2 cupful of strained honey. Soak 1 and 1-2 table-spoonfuls of granulated gelatin in 2 tablespoonfuls of cold milk for a few minutes and when softened add to heated milk and honey. Flavor with 1-2 teaspoonful of bitter almond extract. Stir the mixture until the gelatin is well dissolved, then set aside in a cool place until it begins to stiffen. Peel and cut fine 1 cupful of ripe peaches, mix with the pudding mixture, and pour into rinsed molds to chill and harden. Serve with cream and peach slices.

Apricot Sponge—

Soften 1 tablespoonful of granulated gelatin in 1-4 cupful of cold water. Heat 1 cupful of cold water. Heat 1 cupful of canned or ripe apricots rubbed to a pulp and a little juice, and add the gelatin. Let dissolve then add 1-4 cupful of sugar. Remove from the fire, and stir, and when it begins to become firm stir in the stiffly beaten whites of two eggs. Serve in glass cups with whipped cream and fresh sponge cake.

HUGE QUANTITY MEAT IN STORAGE

Chicago, July 18.—In a report issued officials of the Illinois department of agriculture declare that enormous quantities of meats, butter and eggs are now in storage in Chicago warehouses chiefly under control of the five big packers. The report states that since the last regular compilation of figures June 1, the stocks of these commodities have grown in abnormal proportion and that their release would go far toward relieving the present shortage and tend to reduce prices.

According to the report, the following quantities are at present stored in Chicago:

Beef, 85,971,000 pounds.
Pork, 70,517,000 pounds.
Butter, 7,808,000 pounds.
Eggs, 1,280,000 cases, or 300,000,000 dozen eggs.

The figures in the report will be used by District Attorney Clyne in the federal government's inquiry into the high cost of food products in Chicago.

JEWELS SELLING HIGH IN LONDON

London, June 29.—Jewels are commanding particularly high prices in auctions here. Today a rope of 315 graduated pearls brought $207,500, and three other ornaments an additional $200,000, making the total sales for the brief auction almost a record.

ARREST SHELBY MAN IN KANSAS

James O'Brien Held for Grain Theft.

Shelbyville, July 18.—James O'Brien wanted here and by federal officers for the larceny of shelled corn from an interstate shipment of grain some four or five weeks ago, is in the custody of officers at Dodge City, Kans., and is being held there for an officer from this country or federal district.

This information was received by Sheriff Will T. Boggs and he notified United States Marshal Cooper Stout at Danville, who will send to Dodge City after O'Brien.

O'Brien at the time of the theft of the corn, early in June, was in the employ of the Big Four railroad company as car repairer, with headquarters here. He was receiving a salary of $180 a month. It was charged in the information filed in the county court that O'Brien had stolen a number of bushels of shelled corn from a Big Four box car as it stood in the yards here.

Information also were filed against William Jordan, Charles Pelfer and Frank Martin. O'Brien disappeared before his arrest could be effected, but was traced by the state's attorney and Sheriff to Dodge City. Pelfer appeared in the county court, entered a plea of guilty and is now serving a 60-day sentence in the county. Martin was arrested under a federal charge, was taken before United States Commissioner Ira Powell at Mattoon, and give bond for his appearance later for hearing. Jordan is still at large, his arrest not yet having been made.

WILLARD-SMITH.

Miss Gertie E. Willard of Windsor, and Charles Smith of Sullivan county, Ind., have been granted a marriage license in Terre Haute and married there. Mr. Smith is an undertaker of Sullivan county.

LEN GOHEEN DEAD.

Len Goheen, a former printer here, died June 27 at Dexter, Kans. His death was due to heart trouble. Mr. Goheen was editor of the Dexter Observer. He was 52 ears old.

ADD TO WINDSOR SCHOOL.

Windsor's board of education has let the contract for an addition to the school building to Davidson & Drake of Mattoon, whose bid for the job was $12,095. The only bidder was the Sullivan firm of Hagerman & Harshman, whose bid was $17,000. Recently the addition to the building, in order to provide room for the developing requirements, was ordered by a special election.

HOGAN CAMPAIGNING.

John E. Hogan of Taylorville, was here Wednesday in the interest of his candidacy for election as a delegate from the Fortieth Senatorial district to the constitutional convention next year. F. R. Dove of this city, also is a candidate, and so far these two men are the only Democrats to announce their candidacy. It is understood that Leslie Taylor of Taylorville and John J. Bingham of Vandalia, are Republican candidates.

Mr. Hogan was accompanied here Wednesday by State Representative Arthur Roe of Vandalia, and Dwight Michaels of Taylorville.

D. L. Shoaff of this city, has tendered his resignation as deputy internal revenue collector, to take effect Aug. 15.

TO ATTEND CHAUTAUQUA.

The Shelbyville Chautauqua association has received a letter from Colonel John V. Clinnin of Chicago, former commander of the 130th regiment, accepting tentatively an invitation to be present at the Shelbyville chautauqua on the occasion of "Military" day, Aug. 8, when the soldiers of Shelby county, many of whom were in the 33d division, will be guests of the association.

NEBER-WATTS.

SELLS FINDLAY FARM.

F. B. Vennum of Champaign, who visited his son, E. M. Vennum, in Findaly recently, has sold his farm four miles northwest of Findlay, at $275 an acre. The farm is tenanted by Homer Brown. Mr. Vennum has invested in another farm near Assumption.

E. S. Combs of Findaly has sold two lots in Findlay, to Hazel Gordon. The consideration was $2,175.

Fire of mysterious origin was discovered in the residence of Oscar Bundy and family at Windsor Wednesday evening, when the family returned from attending the band concert. The blaze was in a closet on the second floor of the building, and the closet door was closed. The closet has been used as a store room and none of the family recalls having been in the closet for the last six or eight weeks. Just when the fier started or by what means is a mystery.

The will of Martha Jane Hamblen of Oconee has been admitted to probate. Pleasant W. Hamblen, who is named executor is the sole beneficiary. There are five daughters two sons surviving. The will was made March 4, 1910.

Miss Cora Athey has returned from Colorado, where she has ben spending several weeks with her sister, Miss Ella Athey. Part of the time was spent in Denver, and part up in the mountains, where the sisters had a delightful outing.

Cocoanut Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Mulsified cocoanut oil shampoo (which is pure and entirely greaseless) is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Mulsified cocoanut oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

PAYS $50,000 FOR 100 ACRE FARM

Joan R. Bradshaw Buys Near Forsyth.

BEST IN CORN BELT

Sold at Auction Last Fall at $390 an Acre.

Fifty thousand dollars for 100 acres of farm land a mile north of Forsyth was paid in cash by John R. Bradshaw after a Thursday afternoon half-holiday interview with F. M. Camp, the owner. Mr. Camp bought the land last fall at auction for $390 an acre. It was the William Martin farm. John R. Bradshaw was the auctioneer then. He said in working up the interest and enthusiasm of the crowd that the time would come, and come soon, when that land would sell at $500 an acre At that time he had no thought that he would be the man who would bring his prediction true, because he was not then thinking of making a deal, although he was just as positive then as he is now that Illinois land of that kind was going to $500 an acre and even better.

ORDINARY FARM.

The land has a half-mile frontage on the Bloomington road and a half-mile frontage on the interurban. The improvements are about like those on most of the farms in that locality, a big, good ten-room, house, a rather ordinary barn, not as good as most barns in that neighborhood, some other buildings, but nothing to add materially to the value of the land. The price is made by the character of the land, which is thought to be the best in the corn belt.

PLANS IMPROVEMENTS.

Mr. Bradshaw expects to spend another $100 an acre within the next few months, putting on improvements. This will make the value around $600 an acre, perhaps the highest valuation on land depending solely on its agricultural possibilities for its value.

It is about eight miles north of Decatur and one mile north of Forsyth It is farm land only, without any possibilities for development for residence, truck or other such features that often raises the value of land.

Mr. Bradshaw gets possession next March. The land is now being farmed by Harry Camp, son of Mr. Camp.

NOT FOR PROFIT.

"I did not buy this land with the expectation of selling it and thereby making a profit," said Mr Bradshaw. "I bought it because I thought the value was there and that it was a farm I would like to hold. I may live there part of the time. I am going to put it in first class condition for residence.

"The last two or three weeks I have been on a land selling tour through Iowa and I find that in that state land of the same kind as our best corn land is selling at $100 to $200 an acre more than our land of the same character. At the same time I think our land is actually worth $100 an acre more than the same kind of land would be in Iowa Thus I figure that compared with Iowa land our land should be worth $600 to $700 an acre I am now speaking of the best black Illinois corn land, as compared with the same kind of land in Iowa

"I make a prediction now that within thirty days you will see more deals for this kind of land at $500 an acre Compared with other things the value is there I am so sure of it, you see that I am not afraid to take my own medicine"

J. N. Orr, Fred Wilson and Ross Hockaday of the board of review of Macon county returned Thursday evening from Urbana, where they attended a meeting of representatives of boards from Douglas, Dewitt, Piatt, McLean, Moultrie and Champaign counties. Representatives from the office of the state auditor and from the newly created tax commission were there and talked with the board members on the new law changing the assessed valuation from one-third to one-half the real value, and said that the total amount raised would be practically the same as under the old system of taking one-third the total value.

The reason for making the change was to give cities greater bonding power, as the limit of bond issue is based on the total assessed valuation. Their explanation was the same as that of County Clerk C. H. Patterson.

NOT DIFFICULT.

The work of the boards of review in changing the assessed valuation on the collector's books from one-third to one-half the total real value will not be as difficult as it was several years ago when the change was made from one-fifth to one-third full value. Then, as now, the change had to be made after the assessor had finished his work. Boards of review all over the country shuddered at the task before them. In one county the board of review entered into contract with an accountant to do the job for $700, but before he had got far into it he threw up the contract.

WORKS OUT SYSTEM.

W. A. Holman was chairman of the Macon county board of review at that time. C. H. Patterson, then a deputy in the office of the county clerk, worked a day and a half working out a system on his rate machine. Then he took the machine up to the board of review and turned it over to the clerks of the board in a very short time they had the changes completed.

The board of review members were so well pleased that when the board of supervisors met they suggested that Mr. Patterson be handsomely remunerated. This he declined, and then the board appointed him an extra delegate to attend the national convention of clerks and supervisors.

This year it will not be hard to make the change. The total fair cash value is already on the collector's books and the board members can simply take half of that and they have the assessed value, and they can cover up the other column containing the assessed value on the one-third plan.

BRING 15 BABIES TO WELFARE CLINIC

Opening of Durfee Station Proves Popular in Northeast.

With fifteen babies brought to the opening session of the Child Welfare clinic at the H. B. Durfee school Thursday afternoon the promoters of this work in the interest of better babies and stronger children were much encouraged. The interest taken in the health of babies by the mothers of that district was unexpectedly great and it is now certain that there will be more mothers and their youngsters at the next clinic which takes place next Thursday afternoon at 2 o'clock and every Thursday thereafter.

Mrs. John Record, president of the Federation of Mothers clubs, Mrs. Lou Shutter president of the H. B. Durfee school mothers' club, and Mrs. George Flint, vice president of the Pugh school mothers' club, were present to assist in the reception, weighing and looking after the fifteen babies who were examined by the two physicians and nurse in charge of the welfare station.

TWO STATIONS OPEN.

Every week there will be two welfare stations open in Decatur now. On Tuesday afternoon the station at the Eastman school will be open at 2 o'clock and at the same hour on Thursday the station will be open at the Durfee school and all mothers are being urged to bring their babies to these clinics for examination and weighing. The doctors and nurse will answer questions and offer suggestions as to the care of babies in general and make recommendations for a particular case, if any are needed.

This work is being done as a community work and is, of course, without charge.

Danger Lurks In Summer Foods For Babies

EVERY mother knows the evil effects of summer heat on cow's milk. This danger is equally great to all foods unless carefully kept in a cool place away from insects.

Bad food loses its nourishing value. It causes constipation and diarrhea. These are at best always prevalent in the summer time. They depress the mind and weaken the body, and may cause more serious illness.

The first precaution is to see that the stools are regular and normal. In the case of babies and children, if less than twice a day you may suspect constipation; if more than three times a day, diarrhea. A remedy is then needed that will regulate and tone the bowels, and you will find none safer and better than Dr. Caldwell's Syrup Pepsin. It is a combination of simple laxative herbs with pepsin that millions of mothers constantly have in the house for just such purposes.

A bottle of Syrup Pepsin can be bought at any drug store for 50c and $1, the latter the family size. A free trial bottle can be had by sending your address to Dr. W. B. Caldwell, 480 Washington St., Monticello, Ill.

Back Your Opinion of Millikin With a Pledge For Its Welfare

NINE years ago Millikin was hailed as the community's greatest boon in a decade. Endorsements only last Spring, before the campaign started, were hardly less hearty. You are urged now to show your loyalty in a substantial way.

Rapidly as the work of raising $400,000 for Millikin has proceeded, it should go more rapidly.

At the rate of $2,000 a day in pledges it will take nearly three months to raise the remaining $148,000. Were pledges brought in at the rate of $4,000 a day, the whole amount could be cleaned up in the early days of September.

Remember that your delay in deciding on what you will do merely means the waste of the time and energy of busy men, who reap no reward or glory by their expenditure, but are working on the canvass as a matter of duty.

The appeal has been presented to nearly every prospect in the City. Until the campaign in the county can be started, workers can only visit and re-visit those who have been already approached.

These pledges must be made. It must be made perfectly evident that Decatur has done its full share before the territory in the county outside the City can be canvassed.

JIMMIE WILDE GIVEN DECISION

Pal Moore Goes Limit With British Champ.

London, July 18. — Jimmy Wilde, British flyweight champion, won a decisio against Pal Moore, the American bantam, on points in their twenty round bout at the Olympia. The contest went the limit, with Referee Eugene Corri giving the verdict to Wilde.

Twenty thousand persons witnessed the fight. Moore administered much punishment on his antagonist in the early stage of the bout, but at the end of the twelfth round Wilde led slightly on points.

TRIES FOR K. O

In the fourteenth round Moore sent a jab to Wilde's mouth which made the blood spurt. It was evident in the last rounds that Moore was trying for a knockout but Wilde's ring craft and cleverness prevented the American from carrying out his plan.

On the invitation of the Prince of Wales, Gen John J Pershing occupied the royal box with the Prince and his brother, Prince Albert. The party was given an ovation. Gen. Pershing frequently waved his hands or bowed his acknowledgment to the plaudits of the crowd.

DRESEN REPORTS TO PEORIA TEAM

Last Semi-Pro Player Tries Three-I Baseball.

Charley Dresen, Stalley second baseman, has reported to the Peoria Three-I league team to try out on the infield. Dresen is one of the best semi-pro players Decatur has ever developed, proving an all-round player and a heavy hitter. At one time he ranked among the leading semi-pro pitchers in this vicinity but his arm finally got to the point where five or six innings was all it would stand. He then went to playing infield and outfield positions and starred in both places.

COX HORSE WINS COLUMBIA PURSE

McGregor The Great Takes $3,000 Stake in Straight Heats.

Kalamazoo, Mich., July 18.—The $3,000 Columbia hotel purse of 2.12 trotters, feature of today's Grand Circuit card, went to the Cox stable, the horse, McGregor The Great was the class of a field of thirteen starters and won straight heats without effort. The time was 2.06¼, 2.07¼ and 2.07¼. Peneslin, an even money favorite with the Cox horse showed little.

STAGES "COMEBACK."

There was an upset in the 2.08 trot, Holly Rood Kate, after finishing ninth in the first heat, went out and took the next two. Allie Lou, the favorite, failed to win a heat. The five year old trot was easy for Nellie The Great, daughter of Peter The Great, the time being 2.11¼ and 2.13¼.

Captain Heir At Law, driven by Charlie Valentine won the 2:11 pace over the half mile track. He took the first two heats, broke badly in the third heat and finished fourth. He went ahead and won the fourth heat.

AUTOMOBILES MAY PASS SAFETY ZONES

Not Allowed to Pass Cars Where Zones Not Provided.

An automobile stopped at a safety zone in the business section Thursday evening while a street car was taking on passengers. Soon two or three more cars were stopped behind the first one. A policeman came up and motioned the first car to proceed thus releasing the blockade.

It is explained that the traffic law does not prohibit an automobile passing a street car that has stopped at a safety zone, providing the auto is driven slowly. The traffic law however does prohibit an automobile passing a street car that has stopped to take on or discharge passengers where there are no safety zones provided.

It is also pointed out that a car may turn in the middle of a block providing by so turning traffic is not interfered with. Traffic moving north and south has the right of way all over the city.

RESERVE STRENGTH OF TWO NEW YORK CLUBS MAY DECIDE PENNANT

BY FRED TURBYVILLE.

As the sixteen clubs in the big leagues are travelling at the present time most of the baseball experts would pick the White Sox and Cincinnati to win the pennants and clash in the world's series. But each of these teams is severely handicapped by lack of reserves.

Cincinnati, well stocked with classy pitchers, needs both infield and outfield utility men of class—second stringers who are almost as good as the regulars.

The White Sox need one or two good pitchers to help out the present overworked force.

The Giants and Yankees have plenty of reserve power in all departments, though individually their regulars hardly class with the Reds and White Sox.

Cicotte and Williams have been doing the bulk of the work for Chicago with Faber furnishing good assistance. The rest of the team is O K and there are utility men to take the places of those who may suffer injuries.

Slumps and injuries are bound to come, it seems. Once in a while a team goes through a season without a serious losing streak but very seldom is this the case.

A team is no stronger than its substitutes, is an old axiom fitting baseball as well as other sports.

Cleveland in the American has a first class aggregation of catchers, infielders and outfielders but more strength is needed in the box, unless some of the youngsters, or unreliable veterans, can hit a winning pace. Jill Jasper has been going well and may add the necessary punch. Cleveland has had its share of slumps already and with good pitching and no more losing streaks the Indians stand a chance to put it over.

Something unheard of would be a world's series in which the Cleveland and Cincinnati clubs were the principals. It would be an all-Ohio affair with enough fans in the buckeye state to make it go.

New York is perfectly willing to support its own world's series. The Cincinnati-Chicago combination wouldn't be bad, either.

Rushing pitched a good game for the interurban men but he had to do it for when he cracked up in the seventh inning, the Wabash men were quick to take advantage and hammered out three runs. Rushing then tightened up and fanned the last two men. Rushing walked four men, hit one and fanned six. Sandon fanned the same number did not walk any but made a couple of wild heaves. Rushing also fattened with a couple of three-baggers, one when two men were on bases. Gassler and Maserang each got a home run. The score by innings follows:

CAN OBTAIN WINE FOR CHURCH USE

Internal Revenue Ruling Made on Problem.

Washington, July 18.—Regulations just issued by the bureau of internal revenue afford every religious organization in the United States opportunity to obtain wine for sacramental purposes.

"We have endeavored to cut out all 'red tape' " Deputy Commissioner Gaylor said, "and have made the regulations easy for bona fide organizations to follow."

Where sacramental wines are produced and distributed under clerical supervision, as in certain monasteries of the Roman Catholic church, the usual internal revenue tax must be paid and accurate records kept of all shipments.

In case of purchases of wine from dealers not under church supervision, the bureau expressed a preference that an affidavit of the use to which the wine was to be put accompany the order, for the protection of both the seller and the purchaser. Churches not having hierarchal organizations will obtain wine on the application of the minister or duly authorized officers of the congregation.

Jewish congregations, each of which is a separate entity under no superior prelate, will obtain wine for their services on application of the rabbi. The historic mead, brewed from grapes and honey, will continue to be used in the Passover feast. The bureau has ruled, contrary to erroneous reports, that mead was prohibited, that the drink may be made in accordance with ancient custom in the homes of Jewish families, when intended for use in the religious festival.

KAROLYI WILL VISIT AMERICA

(By The Associated Press.)

Berlin, Thursday, July 17.—Count Michael Karolyi, former president of the Hungarian republic, has arrived in Italy after several attempts to leave Hungary, and will go to America, according to a Vienna dispatch to the Kreuz Zeitung.

Several weeks ago, it is said, Count Karolyi escaped to Austria, but he was made prisoner by the Austrians and returned to Budapest. The count, the dispatch adds, then sought and procured the assistance of the Italian military authorities who sent him in charge of a guard to Italy by way of Innsbruck. The Vienna dispatch concludes:

"He will, however, have to leave Italy for America immediately."

Bela Kun, the Communist foreign minister, the dispatch says, permitted Count Karolyi to retain his available cash and securities.

Senator James A. Hanson had four dozen English pheasant eggs to be distributed among farmers for hatching. They were from the state game farm.

The Lovington Coal Mining Co., had suspended temporarily pending plans to raise $40,000.

Large editions of Catholic and Jewish encyclopedias were placed in the library shelves. They were works of extraordinary interest.

TWENTY YEARS AGO TODAY.

Louis Nichols sold half interest in his business at 857 N. Water to I. J. A. Papadalpous.

Charles Housum accepted a position as bookkeeper for Oscar Zimmerman.

Miss Bessie Voorhies returned from a trip to California and Oregon.

PETER
Takes the Homesick Cure.

BY THE STORY LADY.

Peter dreamed one night that his mother was putting him to bed. When he woke he remembered it and it made him feel queer. For the first time breakfast didn't taste good. He didn't feel like doing anything. He sat listlessly on the porch. Grandma came out and sat beside him. "Let me see your tongue," she said. "Clean as a plate she reported," as Peter obeyed. "Where do you feel bad?" "I don't know." Peter was winking back the tears. "I feel holler but I cant eat. I'm full of pancakes. Grandma nodded wisely. "I'm going to be your doctor. I pronounce your disease homesickness, and I'm going to give you a prescription.

Grandma wrote a note. "Take this note to Mrs. Bells, you know where she lives and she will give you your first dose of medicine. So Peter went to Mrs. Bells. She read the note, went to the barn and returned with a fuzzy white collie pup. "Your grandfather spoke for him some time ago but he's just now big enough. His name is Pat.

Peter forgot his holler feeling and went running home with Pat. Grandma prescribed cherry shortcake as the next dose of medicine. But the best dose came last. The phone rang and grandma answered it, then called Peter. "Hello, came a faint sweet voice. It was mama. "Are you all right dear. I just wanted to tell you that you are going to have a great surprise in about two weeks. Peter made her talk as long as she would then capered joyously around the room. "I'll bet she's coming, and I like to visit you, grandma, but when I get back home I bet I'll stay."

ASSUMPTION BARBER TO TOUR EUROPE

Assumption, July 18.—Nearly all the Assumption boys who went to war are home and many are wondering where Edwin Morgan, or "Uncle Eddie" as he is familiarly known, is and why he does not return. This week his mother, Mrs. Robert Morgan received a letter from a boy friend of Edwin's which is self explanatory. The letter follows:

"Stonsdorf, Germany, May 25, '19.

"Dear Mrs. Morgan:—No doubt you will be surprised when you get this little note and also wonder why I am writing to you but before I finish you will fully understand why you received a letter from a stranger.

"Enclosed you will find a key for a small suit case that belongs to your son, Edwin, the case I mailed to you yesterday includes the barber tools which he used while here and as you already know without doubt, that he has been transferred to the Composite Regiment which is to parade over different parts of Europe, which consists of large men, a few from each outfit and put into one regiment to represent the A. E. F. and Edwin was the most fit man in our detachment, the leader sent him, and considers his a very good judgment. Upon his leaving, he could not carry all his tools and as he and I were together most of the time, he asked me to sell whatever I could and I promised I would, but upon trying a few times without success as the boys are all planning now on going home and none wanted to buy them, I decided to send them to his home. I know that once he has them he will surely appreciate them as they will make very nice souvenirs. I also mailed a small package to you some time ago which he also asked me to send and I truly hope that both of them will arrive over there safely. As yet I have not heard from Edwin since he left but expect to in the near future. I must close for this time hoping that he and all the rest of us will be home soon and that you get the package, I am

Yours truly,
PVT. JOSEPH A. WAGNER,
Med. Dept., 18th Inf., A. E. F.

START NEW SWITCH ON ELDORADO LINE

In First of Work in Improving Service in Decatur.

The Decatur Railway & Light Co. is installing a fairly long switch track on the East Eldorado street line at the corner of East William and North Seventh streets. This will enable the company to give added service on that line without causing unnecessary delay at switches.

This is the first of the work preparatory to the increased service promised by the arrival of new street cars.

PHONE OPERATORS' STRIKE CONTINUES

Taylorville, July 18.—Unanimous support of the strike of the telephone operators was given by both local unions of the miners in Kincaid Wednesday evening, and an assessment was levied for strike benefits to last as long as the girls were out.

Following the meeting of the locals a mass meeting was held in Kincaid and the strikers were accorded the moral support of the members of the various local unions.

Another mass meeting has been called for Sunday morning in the grove between mines seven and eight. This meeting will be held at 10 o'clock in the morning and will be preceded by a parade.

The operators of the Kincaid exchange left their work Wednesday and have joined the union.

A trip to Stonington was made Thursday by a delegation of the local union and the strikers' side of the case was told a mass meeting.

The situation in this city is quiet and there is no service except on the long distance calls passing through the city where the connections between exchanges were set up before the strikers left.

No conferences have been asked for by either side.

NOT BLAMED FOR ACCIDENT.

J. E. Walker, a former resident of this city was exonerated by a coroner's jury from responsibility in the death of Harold Cothern of Pana. The lad was run over and instantly killed by Walker's car Wednesday. The car was stopped within ten feet.

Fred L. Obenchain, of Bainbridge, Ind. and now editor of the Spotted Poland China Journal, was in the city yesterday making an inspection of the herds on the Swineland farm near this city.

ON AUTO TRIPS

L. F. Beyers and son Orville, 647 South Webster street left at 10 o'clock Thursday for a 1200 mile overland trip in their Dodge car to Grand Forks, N. D.

Mr Beyers has a farm near Grand Forks and they will assist in the harvesting of the wheat crop and remain for several months.

Attorney and Mrs. Leslie J. Taylor and their guest, Miss Ruth Van Horn of Kalamazoo, Mich., their son, Sam Taylor, Mrs. John W Taylor and daughter, Margaret Frances, left today in the Taylor car for The Dells, Wis., and other points in the vicinity. They will be absent about ten days.

Mr. and Mrs. C. G. Ferris will start Saturday on a several weeks trip to New York. They are making the journey in their Pierce-Arrow.

OTHER NEWS.

The preliminary hearing of Mrs. Tom Paccamonti, on a charge of being the owner of a stolen auto, was continued until a week from Friday by Justice of the Peace Joseph E. Wade yesterday. The replevin suit to recover the car was tried before Justice Forrester some time ago and the car is now in West Frankfort.

The examination for teachers which was to have started Thursday at the high school was delayed considerably by the non-arrival of the questions from the Springfield office. They were forwarded via the Midland however, and the tests are in progress this afternoon. A total of forty applied for the tests.

Ray Hopson has resigned as carrier at the postoffice to take a position as agent for the Prudential Insurance company at Decatur.

Assistant Mine Foreman Sanders who has been employed in that capacity at Mine No. 8, for some time past, yesterday assumed the duties of mine manager at No. 9, succeeding Mr. McMullen, who has quit the Peabody Coal Co. to accept a position as coal inspector for another concern.

Workmen went into the Hewittville mine today to clean up in preparation for the resumption of work next week.

Night Policemen Dave McGavic and Tom Stanley will desert the city force to take their old places at the mine. McGavic is mine manager. Fred Helmers of the fire department, has also accepted a place at the mine.

KIRKPATRICK WILL FILED.

A petition to probate the will of J. B. Kirkpatrick, who died on June 28, has been filed in the probate court. The will gives all the personal property to the wife, Mary S. Kirkpatrick, and also gives her the income from the property during her life time.

On her death the property goes to the six children. She is named as executor of the will. The children are Oscar M., of Pana, William, of Burnark, Cal.; Clara M. Tilley, of Walters, Okla.; Charles C Kirkpatrick, Bertha M. Vincent and James J. Kirkpatrick, all of Pana.

NOT INSANE.

Joseph Galvin of Assumption, was brought here Tuesday afternoon for a hearing before an insanity commission.

The doctors on the commission were G. L. Armstrong, W. H. Wolfe, and W. H. Frazer. The hearing was before County Judge Logan Griffiths.

The commission ruled the man's mind still intact, although they recommended that he be treated. He returned to his home and will be placed under the doctor's care.

SOLDIER RETURNS.

Lyle Hill returned home Thursday from Camp Dix where he was discharged. He was overseas about eleven months and was in the battle at the Argonne Forest. Hill was with Fred Helmers but Helmers arrived home ahead of him as Lyle stopped over at Philadelphia and Pittsburgh five days.

Horace Ainsworth, a well known local boy, and the son of Mr. and Mrs. Samuel Ainsworth, who has been working at a large garage in Dallas, Tex., has arrived home. Ainsworth will work at the new shaft.

WILL OIL ROADS NEAR TAYLORVILLE

Taylorville, July 18.—Oiling of several of the principal highways leading into this city will begin just as soon as a good rain comes to settle the dust. This announcement has been made by Commissioner A. Flosher. The first road to be oiled will be the paper mill road. This is a heavily traveled road but so far the dust is not as bad on it as on several of the other thoroughfares.

The four mile lane will be the next to be oiled. This needs oil badly as the dust is getting heavy on it. After this is finished the scraper ford road will be oiled. This road is in better condition than the other roads so far as dust is concerned but the travel is not so heavy as on some of the others. However, a coat of oil on any of the principal roads would not come amiss right now. That is if the condition of the boosters from Decatur yesterday is any criterion. They were covered from head to foot with dust especially those who followed another car closely.

WILL TEACH IN HONOLULU

Stonington, July 18.—Mr. and Mrs. Arthur Robinson and children, of Fargo, N. D., are visiting Mrs. Robinson's father, Rev. J. J. Midkiff, and Mrs. Midkiff. They will return to Fargo about Aug. 1, and on Sept. 2 will sail for Honolulu where Mr. Robinson will have the principalship of an academy for the government.

The People's Verdict On the President's Plea

Out and out opponents of the League of Nations Covenant are not converted by President Wilson's plea that it is "a practical necessity," "the only hope for mankind," and that to reject it would be to "break the heart of the world." The leading article in THE LITERARY DIGEST for this week—July 19th—gives a country-wide survey of the press and interviews with United States Senators, enabling readers to gain a very definite idea of what the nation thinks of the President's Senate speech for a League of Nations.

While the Minneapolis *Journal* (Rep.) urges us "to be very sure that the Covenant does not permit the European camel to get its head inside our tent," the New York *Times* sounds the dominant note in public opinion when it declares that "the President's address compels ratification; it is an irresistable force which the Senate can not with stand."

FRED NOBLE ENDS 12 YEARS SEARCH

Ft. Wayne Boiler Maker Was Unable To Find Relief Until He Took Tanlac—Trouble Is Overcome.

"For twelve long years I have been trying to find a medicine or treatment that would overcome my troubles, but I never had any success until I commenced taking Tanlac," said Fred Noble, a well-known boilermaker at the Pennsylvania railroad shops, who lives at 123 East DeWald street, Fort Wayne, Ind., the other day.

"A man has got to keep himself in mighty good condition if he expects to make good as a boilermaker," continued Mr. Noble, "and if I had not gotten hold of this Tanlac, I don't think I could have stayed in the game very much longer. My stomach was in such bad condition that everything I ate disagreed with me, and just seemed to form into a lump. Sometimes I would be so nauseated that I could not retain my food, and I finally got to where a glass of water upset my stomach. I also suffered terribly with a bad pain in the small of my back, and very often, while going to and from my work, I would have to stop and sit down and lean against something and rest awhile before going on. All this pain and suffering finally affected my nerves and I hardly ever got a good night's sleep.

"I had been reading a good deal about the good Tanlac was doing so many people, and I decided to give it a trial, although I had no idea that I was going to get such wonderful benefits from it. I was surprised to find myself getting better right from the very start, and I just continued to improve until all my troubles are gone. I never have that awful pain in my back now, and my nerves are so steady that I sleep like a rock every night. I have a fine appetite, and everything I eat agrees with me all right. My stomach seems to be in perfect condition, and I haven't had one of those vomiting spells since shortly after I began taking Tanlac. I am so well and strong that I can swing those big hammers down at the shops as well as I ever did, and when night comes I am not so tired and worn out like I used to be. Tanlac is a mighty good medicine, and I am more than glad to recommend it to everybody."

TANLAC is sold in Decatur by Decatur Drug Company.

WRITES BACK FOR DECATUR PENNANT

Mrs. William Downey on Way West in Auto.

THE fact that they did not have a nice big Decatur pennant on their car is the only thing that has marred their trip so far, writes Mrs. William Downey, who with the other members of her family is on her way west to California in their car. So anxious is she to have that pennant that she has asked a Decatur friend, Mrs. A. A. Jones, to send her one, and Mrs. Jones is doing so at once, so for the rest of the journey west the Decatur folks will have their car properly adorned.

The Downeys left for the west Wednesday morning. After leaving Decatur a week or so ago they visited in Champaign, Wenona and Gilman before starting on their westward journey. The letter just received from Mrs. Downey was written from Iowa City. They had found the roads fine, so far, and were enjoying the trip immensely. When they get that Decatur pennant they feel that they will be able to enjoy their journey to the utmost.

Mrs. Elmer Brintlinger entertained twenty guests Thursday afternoon in honor of Mrs. Walter Murtlow of St. Louis, Mo., who is visiting in Decatur. Mrs. Brintlinger served a two-course luncheon.

SALEMAS division members of the Woman's club will have their picnic Thursday evening, July 24, at Dr. Claire Garber's summer home, Elm Ridge north of the city. The members of the division will take either the 3 or 5:15 interurban car. Their stop is at Brett's crossing.

A potluck supper will be the feature of the picnic. Miss Emma Miller is acting as chairman of the committee in charge.

The division closed its meetings for the summer some time ago, but decided to wait until the Thursday half-holidays were in force before having their picnic.

Mr. and Mrs. G. A. Naylor and son, Arthur, left Friday for Chicago to visit the Leonard Crunelle family. Jean Crunelle who has been in France for two years is expected home any day now.

Mrs. Charles Bachman has returned home from the Decatur and Macon county hospital, where she underwent an operation for the removal of her tonsils.

Mrs. Dan W. Tait entertained the Tuesday card club at her home Friday afternoon.

Thursday afternoon Mrs. Tait had a few friends at luncheon at the Country club in honor of her guest, Mrs. I. M. Babbit of Evanston.

ABOUT fifteen or twenty couples of the younger folks had a lunch dance at the Fishing club Thursday evening.

Mrs. C. C. Caldwell on Oakdale boulevard entertained about twenty guests Thursday afternoon at a porch party in honor of Mr. Caldwell's mother and sister, Mrs. Nora Caldwell and Miss Lillian Caldwell, of Chicago. During the latter part of the afternoon Miss Esther Requarth and Ruth Brown entertained the party with some Dalcroze dancing. Orange ice and cake were served.

Mrs. Walter Murtley of St. Louis, Mo., is the guest of Mrs. J. H. McEvoy.

ERECT POURING TOWER AT STALEY

Place Piling for Twelve Story Structure.

That slim, tall spidery looking tower which stands out by itself on the grounds of the A. E. Staley Manufacturing Co., in East Decatur is the concrete pouring tower which has been erected preparatory to pouring the concrete for the corn sugar house for which the excavation is now being made. This building, which will be erected soon, is just west of the large boiling starch building on which the roof is being placed at this time.

179 FEET HIGH.

Directly north of the excavation for the sugar house a pile driver is at work sinking concrete piles to carry one of the tallest of the buildings which are to be erected at once. This building will be twelve stories or 179 feet high and the already towering spider web like concrete carrier will be carried up almost twice as high as it now is to care for the concrete which will go into the tallest building.

On the site of the addition to the boiler house, where four huge boilers will be added to the power plant, the workmen are excavating about the concrete piles which have already been placed and the active construction work on the building itself is being started.

ACTIVE SCENE.

With a steam shovel actively at work, two power cranes rushing about the yards, a clam shell crane unloading coal, strings of teams hauling away dirt from the steam shovels and gangs of men at work on many buildings, starting, building, re-modeling and finishing structures, the grounds of the Staley Co. present an active appearance of construction found in few places in Illinois at this time.

PUTTING ROOF ON FACTORY BUILDING

Osgood & Heiner Structure Nearing Completion.

The workmen are framing the roof for the Osgood & Heiner factory building on East North street, across from the high school and the advantages of the "saw tooth" roof construction can readily be seen.

The factory building has a really good looking front and has enough ornamentation to take away the usual blank appearance of the average industrial structure.

FEED FOUR MILLION EUROPEAN CHILDREN

(By The Associated Press)

Paris, Thursday, July 17—Four million children in Europe are being fed under the auspices of the American Relief administration. This work will probably be continued through private charity under American direction, even after the conclusion of the work of the American food administration in Europe.

STALEYS TO HAVE FIRE STATION

House for Hose Reel Now Being Erected.

A fire engine house is being erected in the midst of the group of buildings of the Staley Co. just where the apparatus can be run out to go in any direction where it may be needed among the many buildings there.

The equipment consists of one of the old style hose carts with two high wheels, fifty feet of rope to be reeled out when the alarm comes and the men grab the cart to rush it to the place where the fire is reported.

500 FEET OF HOSE.

On the hose reel are 500 feet of hose. The cart reminds old timers of the days of the volunteer fire department and to those who have recently moved to Decatur from very small towns the sight of the hose cart made for man power hauling brings a pang of homesickness.

Distances are short about the factory and with a corps of men drilled to respond to an alarm the equipment can be taken to any part of the grounds very quickly.

Famous Actress Tells How She Uses Derwillo To Beautify Her Complexion

MISS ETHEL CLAYTON

New York—Miss Ethel Clayton, the clever young actress now successfully starring under the Paramount banner, is famous for her beautiful complexion. When her friends inquired about it she said, "It's all due to a toilet preparation called derwillo which I use twice daily. The experience I have had prompts me to make my secret public. This wonderful derwillo instantly beautifies my skin and its continued use has made the results permanent." When Mae Edna Wilder, the well known beauty specialist, was interviewed in reference to Miss Clayton's remarkable complexion stated, "Anyone can have a beautiful complexion when they know how. It's a very simple process. I use the same article in my work, and until you try it you have no idea of the marvelous results. The very first application will astonish you. Go to the toilet counter of any drug or department store and get a bottle of derwillo, then make the following test: Examine your skin critically before your mirror, note carefully its appearance, then apply derwillo as directed. After you have made the first application look in your mirror again and note the surprising change. A peach-like color mounts to the cheeks; a baby softness comes to the skin; it makes the skin rosy-white, velvety and radiantly beautiful. It is wonderful for a dark, sallow skin, shiny nose, freckles, tan, oily skin, sun spots, coarse pores, pimples, blackheads, chapped, rough skin, ruddiness, wrinkles and many other facial blemishes. Derwillo method is absolutely harmless and will not produce or stimulate a growth of hair. It is superior to face powder as perspiration does not effect it, therefore it stays on better. Thousands who have used it have had the same results as Miss Clayton, and I am sure if you will give it a fair trial you will become just as enthusiastic as I am and always use it in preference to any other powder or beautifier."

NOTE—When asked about Derwillo one of our leading druggists said, "It is truly a wonderful beautifier, away ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to anyone who is dissatisfied, and we would not permit the use of our name unless the product possessed unusual merit." It is sold in this city under an iron-clad money back guarantee by all department stores and up-to-date druggists, including The Decatur and The Bell Drug Companies.

ABOUT TOWN

MEN have much fun at these luncheons and dinners where they eat together. At the luncheon which was given for Governor Lowden Tuesday, although there were a few women present, the men called it a club luncheon and removed their coats so that they could the better enjoy the talk.

Then again, they can call things by the first names when they meet them on the table.

"Pass that chow-chow, will you," said A. M. Kenney, at one of the tables, to W. C. Field.

"Now, who has a fork?" None being available John Allen remarked "Since you call it chow-chow and not salad, let's serve it with a spoon" and the popular bank president with malice aforethought, and with many accomplices began to commit one of those social crimes which would cause their wives who might "be keeping up with the 400," to commit physical suicide as this serving of salad with a spoon is social suicide

But the men didn't care—not they Perhaps that is one of the secrets of these numerous luncheons, "drive" dinners and the like which seem to be the style in this town—that is style among the men, if you can call it style at all.

THE motorist who drives south from Decatur along what is known as the "east" road to Macon does not realize the awful poverty which must be concealed behind the great crops of wheat, the fine droves of hogs, the good homes and the $350 an acre land lying along the highway.

It must be a poverty stricken country. The condition of that highway proves it.

A Decatur man, interested in good roads, asked some one from that district recently why that stretch of road from Elwin to Macon was in such a condition of ruts, holes and a general state of disgrace for a township which seems, superficially at least to judge from appearances of prosperity, to be fairly well fixed.

"We haven't any money to fix it up or to oil it," said this man from that section.

With $2 corn, $2 wheat, $23 hogs the situation is indeed serious. When will they have enough money?

"MR. ENGLEMAN aren't you getting light in weight?" asked Edward Powers in an anxious and solicitous tone of Decatur's eighty-inch (high) school superintendent, J. O. Engleman, while a group of men were going up the Orlando hotel stairway to the dining room to the Lowden luncheon Tuesday.

Mr. Engleman must weigh about 210 pounds and in reply to his friend's sympathetic inquiry he admitted that he had been losing weight.

"I think I am about eight ounces under my regular tonnage," said J. O.

HAVE you lost a sum of money lately, just left it around somewhere and gone off without thinking to take it with you? Has your son or your sister or mother, or your cousin or your aunt lost any such package or purse or wallet or whatever it was carried in?

A Decatur business man who is in fact a very busy man has found a sum of money but he cannot discover who lost it although he has advertised in a "blind" advertisement and has had many replies but not yet the right one.

There was something in the receptacle in which the money was found—he does not say whether it was a pocket book, a purse a stocking or a wash-tub, which, he says, would prove ownership beyond question but there is nothing there to give the slightest clue as to the loser's name, address, age, sex or occupation although the finder suspects that the loser is a boy who either dropped it or laid it down and forgot it.

If you have just drop a line to "About Town," care of The Review and that business man will be given your letter.

IN one car of the Chamber of Commerce auto tour Wednesday was Lou Wolfstein of Bright Bros., Sid Harrison of the Empress theatre, Aaron Baron of Louisville, Ky. and Oscar Greenbery. They were getting along all right until Mr. Wolfstein who was driving became separated from the rest of the crowd and with Mr. Harrison's assistance in directing him after they became lost they made what one man termed it a special trip to Tower Hill, Ill.

Tower Hill was only reached after Sid had asked several farmers. He about scared one farmer to death when he stepped in front of him to ask the way to Assumption as he had a red bandana around his neck and his clothes were all dusty. The one big trouble they had wa in following the farmers directions after they had been given as no two men in the car understood them the same way. They finally caught up with the other cars as they were coming in near the St. Louis bridge. As one of them afterward said we had lots of fun even if we did make a special trip to Tower Hill.

HIGH RENT IS CAUSING CONCERN

Social Service Bureau Looking Forward to Next Winter.

The higher rents which are being charged for houses about town is hitting the women with children to support, harder than anyone else and the secretary of the Social Service bureau is looking forward to next winter with considerable concern. With higher coal prices, higher rents and probably higher prices for food the problem, of the woman who must support a family will be a serious one.

The Social Service bureau has outfitted a number of children with summer clothing and has also assisted in the screening of some houses where the landlord does nor share that expense with his tenant. This screening has been found necessary for the protection of very small babies against the fly danger to its health.

HOLIDAY HALTS MILLIKIN DRIVE

Thursday Passes Without Subscription.

It is expected that when the workers of the Millikin endowment fund teams meet at dinner at the Y. M. C. A. tonight that there will be some additional subscriptions to report for the fund for the big Decatur school.

The fact that none were reported for Thursday did not disheartem the workers. The half holiday following the absence from the city Wednesday of many of the workers on the Association of Commerce tour was rather expected to make a hiatus in the string of subscriptions being turned in, but the fact that the day showed a complete blank made a record for the campaign. It was the first day since the campaign started that no subscriptions of any kind have been turned in by some of the workers or committee members

LARGE CROWD OUT TO HEAR CONCERT

Tom Abrams Makes Usual Hit With Vocal Numbers.

Central park was crowded full of people Thursday night to hear the concert by the Goodman band On the north side of the park where the people sat there was a blanket of newspapers Friday morning that completely covered the grass. It has been suggested that the benches along the walks be moved over to near the band stand on concert nights That would be better for those who want to sit down, would leave the walks free for those who want to walk around, and the work of changing them back would not be much greater than picking up newspapers from all over the park,

The concert was greatly enjoyed Some old favorites were played, but most of the program was devoted to popular music. "Casey" Jones, who is directing the band while Professor Roberts Walter is busy at the theater is doing exbellent work. Tom Abrams, who sang with the band, made his usual hit. He sang "I'm Sorry I Made You Cry," and in response to an encore sang "Mammy o' Mine" On a second recall he repeated the chorus

"The band will play for "League of Nations" day at the Lithia Springs chautauqua Sunday, giving two concerts.

WILLIAM PARR, 76, DIES IN ARGENTA

Mr. Parr is survived by his wife and the following children: Bunn of East Moline, Ill.; O'to with the A. E. F. in France; Henry, Lulu and Grace at home.

Mr. Parr enlisted in the Civil war when he was seventeen years old. He was a member of Co. A, 41st Illinois Volunteer regiment infantry. He took part in a number of important battles. Among them the battle at Fort Donaldson, the battle at Shiloh, the seige of Corinth, the battle at Coldwater, the seige of Vicksburg for forty-six days and at Jackson Miss.

To Ward Off Summer Complexion Ills

To keep the face smooth, white and beautiful all summer, there's nothing quite so good as ordinary mercolized wax. Discolored or freckled skin, so common at this season, is gently, gradually absorbed by the wax and replaced by the newer, fresher skin beneath. The face exhibits no trace of the wax, which is applied at bedtime and washed off morning. Greasy creams, powders and rouges on the other hand, are apt to appear more conspicuous than usual these days of excessive perspiration. Just get an ounce of mercolized wax at any druggists and use it like cold cream. This will help any skin at once and in a week or so the complexion will look remarkably clear, young and healthy.

DECATUR GIRL WEDS CLINTON GROCER

Clinton, July 18. — Local people were greatly surprised yesterday afternoon when news of the marriage of John Hammond, son of C. N. Hammond, local grocer, and Miss Esther Andrews of Decatur, became known.

These popular young people had kept their coming marriage a secret from nearly everyone.

Mr. Hammond and Miss Andrews were married by Rev. Mr. A. M. Wells, pastor of the local Methodist church, at the parsonage, the ring ceremony being used. Charles Mattoon and Miss Blanche Smith, were attendants. Mr. and Mrs. Hammond left immediately for a short wedding trip to Decatur and other towns to the south of here. They will return in a few days.

Mr. Hammond, who recently received his honorable discharge from the navy after being in service for nearly two years, is well known. He will take up his work in the store as soon as he returns.

The bride is a charming young lady, and is well known in Decatur.

FINED STRETCH $100.

SAM WILSON ARRESTED.

Clinton is getting to be an uncomfortably warm location for bootleggers. This was again made manifest last evening, when Deputy Sheriff B. G. Taylo and Judge A. E. Stone of the local police court, acting on a warrant issued out of the county court, raided the residence of Sam Wilson, 314 North Mulberry street, acting under the direction of State's Attorney Hoff, who is pushing the new search and seizure law.

Deputy Taylo and Judge Stone found Wilson and three pints of whiskey. They also collected as useful souvenirs thirty empty "Old Taylor" bottles, which had been emptied only a short time. All of these will come in handy when Wilson's case is tried in the near future. Wilson was escorted to the county jail where he is at present reposing, awaiting arraignment before Judge Bedinger of the Dewitt county court.

COMMUNITY COUNCIL ANNOUNCEMENT SOON

Porter Millikin Says He Is Inquiring of Work in Other Cities.

"The Community council has not winked out completely," said Porter J. Millikin, president of the organization Friday morning. "It is true that the council has not started any activities and it is also true that there seems to be some duplication of the work of other organizations but I have several letters out now inquiring as to the work in other cities and along what lines the councils are progressing.

"I hope to have something definite to announce in a few days as soon as I receive answers to my letters. I am not averse to doing something with the organization if it has a place in the community but want to find out first just where to start and how to start."

NOT DUPLICATION.

At the time of the organization of the community council it was explained that the council was in no way an organization to detract from or duplicate the work of the Association of Commerce but rather was a council or clearing house for the activities of many organizations formed during the war. It was to co-ordinate the work and guard against duplication, in many lines of activities.

WILL QUIT FARMING BOTTOM LAND

Sullivan, July 18. — Farmers who have been farming river bottom land have made up their minds to discontinue farming these lands south and southeast of this city. A number of them have lost heavily on account of the high waters a few weeks ago. They have been able to raise good crops in the bottom until the last few years but of late the water gets over the bottom after a heavy rain and drowns out the crops.

It is claimed that many dredge ditches to the north empty into the Okaw river and cause the river to overflow after every rain.

18 BUSHEL WHEAT YIELD.

Local grain dealers report that the fall wheat yield in this neighborhood averaging about 18 to 20 bushels an acre and most of it is grading No. 2 and that the spring wheat is averaging about five or six bushels to the acre and grades No. 4 or No. 5. They claim that little of the wheat will grade No. 1. There have been a few fields in which the yield was 30 bushels to the acre but they are few.

May Move Sign Board.

Owners of the signboard at Swarts crossing are now contemplating moving the board back about thirty feet from its present location, which would make it sixty-five feet from the crossing.

WAGGONER'S GET MORE UNION MADE GOODS

The recent arrivals in Union Made merchandise at Waggoner's include men's Neckties, Hose Supporters, and Sleeve Holders, small items, to be sure, but it is the policy of Waggoner's to sell only Union Made goods when possible to procure same, and they are pleased to make this announcement to organized labor.

Waggoner's is emphatically a Union Store, employing Union Clerks and selling Union Made Goods—and if you believe in Union Labor you will patronize the Waggoner store. Now, more than ever before, Union Labor should stand together—should help those who help them.

Also, the Waggoner store is one-hundred percent American. At least two of their salesmen are veterans of the Spanish-American war, later on serving in the Philippines.

Waggoner's have a friendly credit for those who need it. They have no collectors to annoy their customers.

They can outfit the entire family from head to foot with Union Made clothing.

Isn't this the kind of a store you'd like to deal with?

Health and Happiness

Women of today seem to listen to every call of duty except the supreme one that tells them to guard their health. Home duties, church duties, war activities, and the hundred-and-one calls for charitable enterprises soon lead women to overdo. Nervousness, headaches, backaches and female troubles are the inevitable result.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which, added to my weak condition, kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness. Health and happiness? Yes, I have both now."—Mrs. J. WORTHLINE, 2843 North Taylor Street, Philadelphia, Pa.

The majority of women nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down nervous condition with headaches, backache, irritability and depression—and soon more serious ailments develop. Avoid them by taking in time

Wheat Burns

Careless smoking around a threshing outfit caused a fire at the Henry Parrish farm north of Harristown Wednesday amounting to about $200. The fire burned up a rack wagon loaded with bundles, ten shocks of wheat and the straw pile. By hurried action, the separator was pulled away from the straw pile in time to save it and the horses unhitched from the rack wagon.

"Put some sugar on it, Mom."

If there was no other reason to do home-baking than the effect on the childrens' health and growth, *that* would be reason enough. But think of the *sheer deliciousness* of home-baked things.

Wherever home-baking is appreciated, Valier's Enterprise Flour is most appreciated. Its quality is so *much* finer than the ordinary flour that the baking is *bound* to show the difference. If you haven't *tasted* this difference, please *do*. You'll never be satisfied again with ordinary baking results.

Phone your grocer today.

"Community" is Valier's high-grade popular priced flour.

Act Quickly If You Want Canned Fruit At These Prices

There is absolutely no chance whatever that canned fruits will be lower in price than the prices we are quoting now. Most stores are asking much more. The few odd lots which remain scattered over the country are being "snapped up" and resold for export to Europe. We consider that we are very, very fortunate in having secured small stocks of a few items. For this week's selling we offer the following SPECIALS:

GARLAND BRAND PEARS

This is a good quality pear in natural fruit juice. Not absolutely perfect fruit, but good enough for anybody. Will be sold this week at the low price of $1.80 per half dozen.

TRI-COLOR APRICOTS

Medium sized, good colored, California apricots—in syrup—at the low price of only $1.65 per half dozen.

Contract Prices On Wish Bone Corn Lower Than Last Year

We are now contracting for your wants in Wish Bone canned corn, this season's pack, for fall delivery, at $1.70 per dozen, or $3.35 per case.

Last year our patrons paid 35c per case more than this for Wish Bone Corn and were well pleased with it. This was one of the few brands in the country of which users did not complain of discoloration.

It is our advice that you purchase enough of this corn now to run you until next summer. We are paying only 2½ cents per dozen less this year than last but are selling to you for 35c less per case.

We are cutting our margin of profit in the expectation of doubling our sales. We ought to do it, for this is surely a bargain price.

Order of our solicitors, call us by phone or come to our store and order in person.

Delivery will be made about October 1st, cash on delivery. We absolutely guarantee that you will not be offered a lower price on corn by anyone.

SUGAR Cloth Sack 25 Pound $2.50

—delivered if sold with reasonable quantity of other goods.

Sugar has advanced 42c per hundred pounds—almost ½c per pound—yet our price stays the same. This is the very best grade of cane granulated sugar. Make this store your sugar headquarters.

Wedding Ring BAKED BEANS

With Pork in Tomato Sauce

A full packed can of the most delicious beans you ever ate. Nothing finer at any price or under any brand. Compare the quality with what you have been using and then think of the price you have been paying. No. 2 can 14c

Wedding Ring Extra Mammoth Queen Olives

A great big bargain for the next week in as fancy an olive as has been in this market for many a long day. Extra tall 16-ounce bottle 28c

Wedding Ring Tomatoes

With Green Peppers

—Whole, perfectly ripened, hand-packed Indiana tomatoes, with a slice of sweet green chili pepper in each can. Just enough to give the tomato a trace of the pepper flavor. Fresh tomatoes are much too high for the average family. Our present price—a real bargain—per can 17½c

Great Eastern Macaroni & Spaghetti

A splendid, easily prepared summer food. Use it in place of meat. It is much more economical and most of us are better off without so much meat. Full pound box for 16c

Great Eastern PEANUT BUTTER

—Every child likes peanut butter and it is good for children to eat, if properly made. No one who has ever tasted Great Eastern peanut Butter will be satisfied with the ordinary bulk grade or that packed in glass jars.

If you want to save on high-priced butter and oleo let the children use our peanut butter as a spread for their bread. We grind it fresh daily and leave in all the peanut oil—rich in food value.

Per pound 30c
Per half pound 16c

Delicious "Thirst Quenchers"

Not the least of the problems to be solved in hot weather is what to drink is order to obtain cooling refreshment without injury to the health. Here are four drinks which "fill the bill" exactly.

"Cent-a-Glass"

—Decatur's Most Popular summer Drink—

The best hot weather drink we have ever discovered. Demand has been wonderful. We now have all flavors in stock—Root Beer, Wild Cherry, Orange and Raspberry, with another shipment on the way. One bottle makes 25 glasses, per bottle 21c

ICED COCOA

Cocoa beans have been advancing for some time, which means that soon we will have to sell cocoa for more money. Give the children iced cocoa at meals or between meals and watch their happy faces. They'll say it's good. Per pound 40c
Half pound 21c

ICED COFFEE

Make as you would hot coffee and pour into glasses filled with cracked ice. Top off with a spoonful of whipped cream. Then note the delight of your guests or family. Iced coffee is a drink that is becoming more popular each day. Make with Great Eastern brands to get best results.

GREAT EASTERN ICICLE ICED TEA!

There is nothing more refreshing with your meals or for your afternoon tea than a great big glass of deep amber-colored tea served with a slice of lemon. Our icicle tea produces the finest quality obtainable and the price is very moderate considering that one pound makes two hundred glasses.
Per pound 65c
Half pound 34c

COFFEE

Coffee prices have not advanced out of proportion to prices on other foods, and what is there in daily use on your table that costs as little and means as much in satisfaction, particularly at breakfast, as coffee?

If you purchase Great Eastern brands of coffee, you pay less, grade for grade, than you pay anywhere else.

Our best brand costs only 40c per pound and is the equal of any other coffee at any price. Coffee made from this brand, with both sugar and cream used, does not cost to exceed 1½c per cup, when the coffee is made fresh for each meal, as it should be.

If pennies look big to you these days, come here and find how easily you can save them.

BROOMS

We have a few more good quality brooms which we are still selling at the remarkably low price of 49c

Great Eastern EXTRACTS

Used for flavoring your ice cream. It adds the finishing touch. Plenty of all sizes and all flavors now in stock.

WETS SNOWED UNDER IN THE HOUSE DEBATE

Drastic Provisions Kept in Enforcement Bill.

Washington, July 18.—Prohibition forces voted down in the house yesterday every attempt to eliminate drastic provisions of the general enforcement bill, and while in full and absolute control shut off debate at the word of their leader despite the vigorous protest of the minority.

When they had raced through the war time enforcement portion of the three part bill and got into the constitutional prohibition measure, proper, there were only 88 members on the floor and so much confusion that a speaker could not make himself heard.

The house was proceeding rather rapidly with consideration of the bill, with Chairman Volstead preparing to close the debate, when the minority protested. Meanwhile amendments were being offered and voted down without ceremony, while those presented by the chairman went down in rapid succession. There were many bitter threats, particularly after Representative Gallagher, Democrat, of Illinois, said the bill was going to put more men out of politic than any other law ever passed in this country.

CLARK AS PROHI CHAMP.

"All this talk of not being able to enforce prohibition laws is tommyrot absolutely," Mr. Clark said, in urging the house to adopt the trial by jury amendment. Pointing to the drastic provisions of the measure, the former speaker added:

"The idea that a man should not have a particle of whisky or anything of that kind which he may make in his own house will prove to be a hindrance to the enforcement of this law. I do not want any whisky in my house I have not got any either. I cannot drink it without the risk of getting drunk, so I quit it. I do not keep it around. I never did keep it around except inside of me."

When the house quit work at 10 o'clock last night it was in the midst of the utmost confusion over a series of amendments offered by Chairman Volstead relating to flavoring extracts and it was agreed to have them printed in the record so that the members could see what it was all about.

FLIER FALLS 2,000 FEET TO DEATH

Americus, Ga., July 8.—Sergeant Barton Gates of Flushing, Long Island, was killed here late Thursday during an aerial circus being held at Souther field. Sergeant Gates was flying upside down at the time, and it is believed his life belt broke. He fell 2,000 feet to the ground while his machine crashed down nearly a mile distant.

WELDON SOLDIER DIES IN CANADA

Weldon, July 18.—Private William Samons died in a hospital at Balfour, B. C., Canada, Tuesday as the result of wounds received in battle. He was born born Dec. 29, 1887, at Oreana, the son of Mr. and Mrs. Thomas Samons of Weldon.

Samons enlisted in the spring of 1916 at Winnipeg, Canada, and was at once sent overseas with a company of engineers. He was wounded by shrapnel and sent to London, where he was in a hospital for nineteen weeks. Later he was transferred to a hospital at Hamilton, Ont., and then to a similar institution at Niagara-on-the-Lakes, Ont. He came to Weldon on a furlough July 4, 1918, and spent seven days at home. He sailed for England on July 18, and after a short stay in Kent was sent back to France. Eight days after his arrival a shell exploded, throwing a block of dirt against his side. Again he was sent to a London hospital and while recovering from his wound he was taken with the influenza and was sick until April, 1919. He was sent to a hospital in Vancouver in the spring of this year and then to Balfour, where he died.

The body is on the way to Weldon and the funeral will be held at the family residence upon its arrival. Services will be in charge of Rev. C. E. Martin, assisted by Rev. O. W. Lough. The funeral will be of a military character, the first of its kind ever held in Weldon and returned overseas soldiers of the vicinity will act as pallbearers. Four sisters and one brother, besides the parents survive, Mrs. William McKee, Miss Grace and James, all of Weldon; Mrs. Grindell of Wyatt, Mo.; and Mrs. William Fry of Decatur.

KILL GRASSHOPPERS WITH POISON

Taylorville, July 18.—Considerable progress in the arresting of the plague of grasshoppers which have been destroying the fields throughout the county is being made by those farmers who have tried "feeding" them.

County Farm Advisor C. E. Hay brought in samples of corn stalks from which the leaves had been stripped and he also brought in several plants entirely covered with the insects which had clung to the leaves after dying from the effects of the poison.

The best remedy so far used is a mixture of bran, strong molasses and Paris green.

TAKE EX-KAISER'S ILLNESS SERIOUSLY

(By The Associated Press.)

Berlin, July 18.—The Pan-German Deutsche Zeitung which stands close to former royal circles, takes a serious view of the illness of Former Emperor William, calling it "deep melancholy." It is that the one time monarch is so depressed that his physician views his condition as critical.

Count Hohenzollern is said to rarely leave his apartment and seldom sees his closest friends. The paper says that he spends many hours in prayer and that when he does talk he wants to converse on religious subjects. The former emperor is said to show a "high degree of nervousness."

The condition of the former empress is such, according to the newspaper, that she may have to return to Germany for treatment of her old heart trouble.

CANNON WITH 100 MILE RANGE

Paris, Thursday, July 17.—While giving evidence before a committee of the chamber of deputies investigating the Briey question today M. L. Bourgeois, chief engineer of the navy department, said that at the time Paris was being bombarded by German long range guns, he had designed a cannon with a range of one hundred miles which could be put in position in an hour.

The gun was ready for action at the time the armistice was signed, he said.

Bicycles

Don't buy any make of bicycle, just as it is in wheel. Remember, the color is only a slight item—and has nothing to do with the construction whatever.

Why buy some bicycle you never heard of before, when you can get wheels with twenty-five years more reputation? You can buy for the same money, or less, of the largest manufacturers of bicycles in the world, namely Dayton, Miami, Hudson, Columbia, Excelsior and Manhattan for the same money, or less.

LUKE HEGARTY, 35, DROWNS IN PIATT

Farmer City Barber Meets Death While Swimming.

Monticello, July 18.—Luke Hegarty, 35 years old, a barber of Farmer City, was drowned in the river at Hoge-bute bridge, about eight miles southwest of Monticello, about 8 o'clock Thursday evening, while he and Frank Garver, a Farmer City druggist, were in swimming. Mr. Hegarty was considered a good swimmer but it was evident that he suffered cramps in the water and sank immediately. Before Garver could reach him he had gone down for the last time.

BODY FOUND AT MIDNIGHT.

Mr. Hegarty was with a small picnic party, and the others returned to Monticello for help. The body was found about 12 o'clock about forty feet from where it had gone down. The inquest was held Friday morning and the jury's verdict was that death was caused by accidental drowning.

Besides the two men, the others in the picnic party were Louise Trunnell of New York City and Ethlyn McAvoy of Jacksonville, who are employed by the Western Distributing company of Chicago. The men became acquainted with the two girls about two months ago in Farmer City and they arranged for the picnic Thursday evening. The two men drove over from Farmer City to Bement Thursday afternoon and met the two girls there, and they went to the river, where they enjoyed a picnic supper. After the lunch the two men decided to take a swim.

Mr. Hegarty was born March 24, 1884, in Monticello. About five years ago he went to Farmer City to work in a barber shop and next year he purchased the shop, and had been doing a good business there. He was well liked and was a young man of good character. He was well known through Central Illinois. His parents died a few years ago. Three brothers, William of Chippewa Falls, Wis., who is at present ill, Dan of Colorado Springs, Matthew, at home, and two sisters, Margaret and Agatha, both at home at Monticello survive. No arrangements have been made for the funeral.

AUTO STRUCK BY TRAIN; BOY DIES

Effingham, July 8.—A south bound Illinois Central freight train hit an automobile at the north crossing in Alma Wednesday afternoon. Three children of T. H. Maulding, were in the car. Howard, aged 4, the oldest, was driving the car and for some reason failed to observe the coming train. He suffered both arms and one leg broken, badly cut on the head and at last reports was still unconscious. The other two children were not seriously hurt.

A later report coming on the accident stated that the older boy, Howard had died as a result of his injuries and the other boy, Paul, had one of his arms broken and seemed to be hit in the head, as he is still unconscious.

Mrs. Maulding is the daughter of H. B. Wham and a sister of Fred and Charlie Wham of Centralia.

AGED MT. PULASKI RESIDENT DEAD

Mt. Pulaski, July 18.—William Munce a highly esteemed citizen of this city, died at his home here today, aged 89 years.

William Robinson Munce was born at Natchez, Miss., Dec. 12, 1830, and was a son of John and Eliza (Sleckdale) Munce. His parents were born in Ireland and reared in Washington county, Pennsylvania, but removed to the south where they spent 30 years. In 1840 they moved to Sangamon county, Illinois, locating three miles southwest of Williamsville, the greater part of the son's life being spent in Illinois.

DAUGHTER SURVIVES.

William Munce and Mary Rebecca Davenport of Boston were married in 1875. Two children were born of this union, Charles Carroll Munce and Miss Margaret Munce, Charles died in April, 1916. Mrs. Munce died on Oct. 2, 1917. The daughter, Miss Margaret survives. She has been a devoted daughter and companion in his declining years. Mr. Munce managed the Hay-Colman farm near Lake Fork in this county for 35 years and retired from active farm work in February, 1918 and moved to this city.

For many years the Munce home near Lake Fork was noted for its hospitality and many men and women of prominence in the history of Illinois have been entertained there.

WELL READ MAN.

Mr. Munce was a well read man, keeping abreast of the times in which he lived and delighted in having his house filled with young people whom he treated with true southern hospitality. He was a member of the Illinois State Historical society and was greatly interested in its work. He lived in history making days of his country and retained to a remarkable degree his recollections of the stirring events of his early life and could relate many interesting things of Abraham Lincoln and men of his day with whom he had come in contact.

FUNERAL SATURDAY.

Funeral services will be conducted at 10 o'clock Saturday morning at the family residence on South Martin street by Rev. William Cross, pastor of the Methodist church. After the services here the body will be conveyed by auto to Springfield and laid to rest in Oak Ridge cemetery beside his wife.

Two grand-children, son and daughter of Mrs. Clara Munce of Bloomington also survive him.

BANDITS RAID HIS CELLAR; GET 150 CASES BOOZE

Jackson, Minn., July 18.—Francis L. West, a wealthy farmer living nine miles south of Windom, drove to Jackson today and told the county officials that nine bandits in two big automobiles raided his home while he was away and looted his cellar of 150 cases of liquor, valued at $6,000.

"After the men drank some of the liquor they began to load the cases in their machines," said Mr. West. "They took our small machine and trailer and loaded them also. Then they drove toward the Iowa state line."

ABYSSINIA SENDS GREETINGS—THE GREETERS

Rather an unusual group, but they come from the little known land of Abyssinia to congratulate America on its part in the world war. And wherever they go in the national capital they get attention. Gentlemen of high station, these, as the prefix "Ato," indicates. Left to right they are: Ato Sinkae, Ato Herouy, Kantiba (mayor), Dedjazzmatch Nado, chief of the mission, who is a duke of the royal Abessinian family, and Capt. Paul R. Morrissey, U. S. A., who is detailed to atend them.

CONFER TO CHECK "TAKE ALL" SPREAD

Springfield, July 18.— Agriculture agents of Sangamon, Madison and Mason counties were to confer here today with Charles Adkins, Illinois director of agriculture, to devise means of checking the spread of "flag smut" and "take-all" infection which are said to have appeared in growing wheat in these counties.

Director Adkins has notified Julius H. Barnes, United States wheat director, that he regards it as unwise to quarantine wheat grown in the three counties. The infection of the grain, Mr. Adkins said, is limited, and precautionary measures already have been taken to stop it.

Federal authorities have had under consideration the quarantine of all wheat raised in the three counties and also in Indiana districts where the infection to said to have appeared.

THOMAS JOHNSTON OF MOCCASIN DEAD

WHEAT LAND WILL GO BACK TO CORN

Spring Crop Has Been Almost Complete Failure.

A sample of spring wheat which has just been threshed was sent to a Decatur grain office by a Macon county farmer Thursday. The grains are shriveled and small, weigh 48 pounds to the bushel and the yield on that particular piece was only eight bushels to the acre.

Undoubtedly most of the ground which has been in spring wheat this year will go into corn next year. In fact one farmer stated Friday that much of the winter wheat ground would be fall plowed for corn very soon now.

With the probable lifting of the government guarantee on the price of wheat it is expected that the corn country will return to corn growing next spring. The experience with wheat and oats this spring has not been as encouraging as it was a year ago.

EX-SENATOR BAILEY AS "WET" COUNSEL

Chicago, July 18 — Announcement of the appointment of Joseph W. Bailey, of Washington, former United States senator from Texas, as chief counsel to conduct an early fight against the prohibition constitutional amendment and of the intention to oppose for re-election every state legislator who voted to ratify the amendement was made from the western headquarters of the Association Opposed to National Prohibition.

It is just possible that Senator Bailey may decide to join forces with the attorney-general of the state of Rhode Island," said a statement issued by James Arthur Seavoy, managing director of the association. It referred to the Rhode Island legislatures resolution directing the attorney-general to test the validity of the amendment in the supreme court.

MODERN MILLER.

Chicago, July 1.—The Modern Miller today says—The winter wheat belt shows disappointing yields and quality not up to expectations. The crop is still going backward in the spring wheat country and this is the case especially in parts of South Dakota where there has been damage by black rust. Blight and smut have affected the plant in North Dakota and Minnesota. There will be a further reduction in the crop of wheat of both the Northwest and Southwest. Wheat is moving in large quantities and the receipts will show marked increase from this time forward.

CORN CONTINUES ON DOWNGRADE

Chicago, July 18.—Bearish sentiment predominated in the corn market today owing largely to favorable weather conditions. The break in foreign exchange and the resulting check on export demand for foodstuffs tended also to weaken values. Besides, domestic labor troubles received widespread notice. Opening quotations, which ranged from ⅛ to 1¾c lower, with September $1.89¾ to $1.93½, and December $1.61¼ to $1.62, were followed by decided further setbacks.

Subsequently, attention focussed to a greater extent on economic conditions, and there was persistent selling by holders. After severe breaks, however, commission house buying set in, and the market rallied somewhat. The close was unsettled, 1¾ to 4¼c net lower, with September $1.90 to $1.90¼, and December $1.59¾ to $1.60¼.

Enlarged crop estimates which were current did a good deal to put oats on the downgrade. After opening ⅛ to 1⅛@1⅜c lower, including September at 78¾ to 79½c, the market continued to descend.

Provisions were weaker and lower with grain and hogs. Labor difficulties at the stock yards here had a further depressing effect.

Weakness became intensified later by bearish comment in regard to government investigation of reports of abnormal domestic supplies of meats, butter and eggs. Toward the last, though, packers gave the market a little support.

HIDES ADVANCE TO RECORD PRICE

Predict Shoes Will Be Higher Next Season.

Hides have taken another advance and the leather men say that shoes will be even higher next year than they have been during the last season.

Hide prices are now very high in Decatur, another stiff advance being made Friday.

Calf skins are 67 cents a pound and No. 1 cured beef hides bring as high as 40 cents a pound.

BELIEVES CORN HIT HIGH MARK

Local Buyer Does Not Expect $2 Again.

"I believe we have seen the top," said a Decatur grain buyer Friday in speaking of the downward turn which the market has taken in the price of corn and oats.

"I may be mistaken but I do not think we will again see that $2 price this year. Corn will come out of unexpected places from now on as the harvest is completed and the threshing work is cleared up on the farms."

LOOKING FOR BREAK.

"Corn will be high, but I am looking for a considerable break before the last of September."

In Decatur the downward tendency was noted but as deliveries have been light little change was made in the prices. The $1.88 price is generally shelved but $1.87 is being paid and oats are still at 72 cents.

Poultry and eggs remain unchanged except that spring chickens have advanced to 39 cents a pound.

$225 Cut in Price of Titan 10-20

BEGINNING July 1st, 1919, the 1920 price of the Titan 10-20 kerosene tractor is

$1,000

CASH F. O. B. Factory

$1050 when time is given

Reasonable terms will be given to any man who needs the Titan now and cannot pay cash in full. These terms are new.

WE have reduced the price of the Titan 10-20 from $1,225 to $1,000. This big cut is not justified by present prices of materials and labor, but is made in anticipation that the largely increased volume of business developed will offset the reduction. The Titan now becomes the world's most popular priced 3-plow tractor.

If you have been holding off buying a tractor because $1,000 was your limit for a good 3-plow machine, your price will now buy the best one.

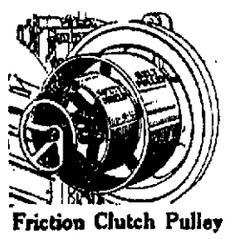

To sell the Titan 10-20 at this low price, not a single necessary feature has been taken off to be bought at extra cost. The Titan comes to you complete. The Harvester Company is too old at the business to offer you a tractor which is not 100% efficient at the drawbar and 100% efficient on the belt.

Remember, the Titan is a 3-plow tractor. Don't confuse it with low-powered 2-plow machines. For a fair comparison as to price, add one-half the cost of any 2-plow tractor to its advertised price, then add the cost of all the extras you must buy, and that will put it on a par with the Titan 3-plow tractor. Then compare values.

In addition, remember the Titan is a genuine kerosene tractor. Gasoline as tractor fuel is unwarranted extravagance. Don't forget that. We give you a written guarantee that the Titan operates efficiently on kerosene.

You can't make a mistake if you select a Titan 10-20 at its present low price. It will give you power satisfaction that will stand by you steadily season after season at drawbar and belt. You may rely on Harvester reputation for good service and fair dealing. Go to your dealer. Arrange for immediate shipment. This price reduction may make delivery difficult later. Place your order now.

These Features, Regular With Titan, Are Charged for Extra by Some Tractor Makers:

Friction Clutch Pulley

Friction Clutch Pulley With the Titan you get a large wide friction clutch pulley, put in the right place by a company that knows where it belongs. It is provided with a safety shield. The belt work season is on. *No extra charge for Titan pulley.*

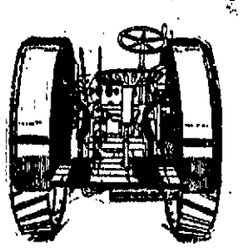

Throttle Governor With the Titan you get a throttle governor. It gives you steady speed for belt work, saves fuel, prevents grain losses, works automatically and perfectly. *No extra charge.*

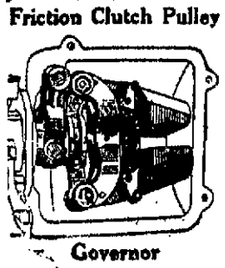

Starting and Service You get the Titan tractor without the compulsory "starting and service charge" made by some companies. Complete instruction in starting and operating is given free. *No extra charge.*

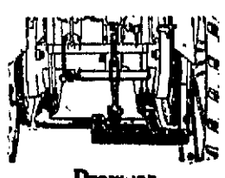

Drawbar With the Titan you get a convenient drawbar, adjustable side-ways and up-and-down. Fits every need. Compare it with others. *No extra charge.*

Fenders With the Titan you get drive-wheel fenders. They stand for safety. They also protect the engine and operator from mud and dust. *No extra charge.*

Platform With the Titan you get a rear platform. You can stand up and run the tractor, put in more hours with less fatigue. *No extra charge.*

ADVANCE IN PAY FOR SUPERVISORS

Will Received $5 Per Day Instead of $3.

HAVE 30 ON BOARD

Will Cost at Least $5,100 Per Year.

Under a law that became effective July 1, members of the board of supervisors will receive $5 a day instead of $3 a day. The next meeting of the board of supervisors will be held in September and the members will receive $5 a day for attending that meeting. The services for committe work will be paid for at the same rate.

There are thirty members of the board of supervisors. That means that it will cost the county $150 a day while the board is in session. The sessions last four days, so each session will cost $600. There are four sessions of four days each in a year, $2,400 and one organization meeting that lasts only one day, $150, making the total cost for a year $2,550, in addition to the committe work, which probably will amount to almost as much as the per diem for attendance at meetings. Even at that the county would be getting by on $5,100 a year.

INCREASE ASKED BY BRICKLAYERS

Want $1 an Hour Instead of 80 Cents.

The brick layers of Decatur have asked for an advance in pay from the present scale of 80 cents to one dollar an hour, the new scale to take effect Aug. 1

The hod carriers have also asked for an advance of fifteen cents from the present scale of 55 cents to 70 cents an hour.

It is generally expected that the advance will be granted although no definite action has been taken by the contractors

RAILROAD NEWS.

Jim Pruett, whose principal job is that of passenger brakeman for Conductor Charles Conklin, but who is serving as depot master pro tem for two or three weeks, is going through the motions of a real depot master. In other words he is making himself a real help to the traveling public about the Wabash station.

One hundred cars are said to constitute the usual freight train on the Wabash now although some of them are longer. A train left Brooklyn a few days ago with 156 cars. They were empties and were to be distributed to the coal mines on that district.

Frank J. Safar, first trick dispatcher for the Wabash is in Champaign for a few days.

W. F. Boland, chief clerk for the Wabash maintenance of way department, who was in the automobile wreck at Swartz crossing last Sunday was at the office a short time Friday morning but he will not return to duty till next week.

PLENTY OF TROUBLE ON LONG TOUR

Using Fourth Set of Tires Since Starting.

C. F. Elms and family, consisting of his wife and three children, accompanied by three dogs, were in Decatur Friday on their way back to their home in Seattle, Wash., in their automobile. They left their home on the western coast June 1 and since that time have been to Toledo, O. and are now on their return trip.

The mileage to Toledo was 3,334 miles and the family camped along the way, coming east by way of the Oregon trail to Snowville, Utah, where they picked up the Lincoln Highway

ALL KINDS OF ROADS.

They had all kinds of roads during the journey but the story of tire trouble which Mr. Elms told would have discouraged the ordinary motorist.

At Decatur he was just starting on his fourth set of tires since leaving Seattle.

He had had troubles galore. "I was down eight times yesterday," he said while in Decatur getting his tires put into shape. "I had one new tire on the trip, which went less than 300 miles when it blew out."

LONG WAY FROM HOME.

Judging from the great distance traveled in the short time over all conditions and kinds of roads it is likely that he "burned up" the tires on the journey as the record of having used up three sets of tires is unusual on such a trip. He is still a long way from home, too

Mr. Elms is a chain maker by trade and was taking a vacation trip after the busy times of his trade during the war.

SODA FOUNTAIN DEMAND HEAVY

Many Car Loads Shipped Every Day.

"We are shipping an average of a car load of Decatur made soda fountains a day," says a local freight agent, "and there is no reason to suppose that we are getting more than our quarter of the business. Allowlink that we are getting a fourth of it that means that Decatur is shipping four car loads a day. You wonder where all of the soda fountains are going."

As a matter of fact this agent is representing less than one-eighth of the railroad lines centering in Decatur and the number of fountains shipped daily is probably greatly in excess of four car loads a day. The demand for fountains has tremendously increased with the prohibition of liquor, which goes to say that it is a cold day which doesn't profit some body.

TAXI OWNERS SAY PRICES TOO LOW

Declare They Are Just Meeting Expenses.

Taxi cab owners say that it will be impossible for them to meet the scale of prices fixed in the ordinance presented by Commissioner Van Praag last Monday. They pay chauffeurs $10 to $21 a week, have to keep auto mechanics employed at high salaries all the time, must maintain office and garage night and day in addition to the cost of gasoline and general up-keep of the cars. They say that it is all they can do to get by at the prices charged now, and that the effect of the proposed ordinance would be to put them out of business

"The gardens are needing rain for everything just now although potatoes very generally have made their growth."

MANY IN FAVOR OF SECURING PARK

City Planner Says City Should Have Dreamland.

That everybody in Decatur is practicaly unanimous in favor of the acquisition of Dreamland park as an addition to Fairview park and the taking over of the land owned by the Illinois Traction System giving the park an actual extension to Sevens Creek is evident in discussing the subject with people about town.

In a discussion of the subject, before this recent proposition was taken up, P. T. Trooger, member of the firm of American Park Builders which is drawing a city plan for Decatur, made the remark to a Decatur citizen that he did not see how the city could afford to miss securing that hill land clear to Stevens Creek. As a scenic and park proposition he thought that it is unexcelled in this part of the state.

TO REDUCE FORCE AT CANTEEN HUT

Only One or Two Needed to Serve Soldiers.

It is probable that the canteen committee on duty at the hut will be reduced from now on till the first of September when it is believed that the work of the canteen will be ended. On days when troop trains arrive the force will be augumented to meet the emergency. Ordinarily the soldier travel through Decatur is very light now and there is no need of seven or eight women giving their time to the canteen every day.

The canteen women have had a long and busy year. They have worked hard and in many cases, probably in most cases, they have obliged to neglect home duties to give a day of each week to the canteen. It is now largely a matter of keeping the hut open and serving the few stray soldiers that happen along. Two persons or even one person can do this and they can be alternated so that each member of the canteen will be called upon to give only one day a month instead of one day a week.

MUCH THRESHING STILL UNFINISHED

Wabash Handling About 30 Cars a Day.

Wheat threshing in Macon county has not yet reached its crest as it appears from the number of cars loaded on the various railroad lines in the county. The Wabash is loading from twenty to thirty cars a day. The Shellabarger Elevator company is receiving wheat from five or six threshers. The yields reported are from twenty to thirty bushels to the acre. The wheat is most grading No 2 with some No. 3.

The spring wheat so far delivered is no grade. The quality is so poor that many farmers are said to be keeping it for feed.

Fail to Give Bond.

Both men are said to have records, Thompson having served a term in Arkansas and Baker having been er ployed in making little ones out of big ones at St. Louis.

BETTER KEEP YOUR OLD CLOTHES—WOOL AND COTTON SOON TO BE HIGHER THAN IN FIFTY YEARS

BY RICHARD SPILLANE.
America's Foremost Financial Writer.

Do not throw away your old clothes.

In all probability all kinds of woolen and cotton goods will be more costly next fall and winter than at any time in fifty years. If you are prudent you will be as saving of everything from your best suit to the bedclothes as you were in the days when the government was telling you it was a patriotic act to curtail your purchases to bare necessities.

There are men in the trade who declare ready-made men's suits that now sell for $35 will command $75 within a year. That seems extreme, but it is not impossible.

There is a pronounced shortage of wool threatening America. There is likilhood also of a pronounced shortage of cotton. Supply and demand govern price-making. If, coincident with shortage of supply, there is no curtailemnt in demand the result in price depends only upon how insistent is the demand and what is the ability of the consumer to pay.

Great Britain is well fixed as regards wool. To the quantity the the British government controls in her colonies, approximately 700,000,000, she had in stock early this year about 190,000,000. This, with what comes forward from new clips, will give a nice surplus to the British. Great Britain is after world trade and, naturally, will use her strong position in relation to wool to promote her efforts in restoring her ruptured trade connections in various parts of the world and especially where she desires to supplant Germany or forestall America.

The United States is in a bad position as regards wools. The government has disposed of its stock of wool over which it held control in the war period. Much of this has gone to the mills. The government holdings aggregated 268,000,000.

Beginning July 1 the western growers will market their clips. They expect and in all likelihood will receive much more for their wool than the government obtained for what it sold.

America does not raise enough wool to meet its ordinary requirements. It cannot possibly obtain this year as much as it needs. That means higher prices for wool.

There is another shortage threatened. That is in manufactured goods. There have been long drawn out strikes in the woolen mills this last few months in which enough time was lost to mean probably 10 to 15 per cent reduction in the amount of cloth manufactured in the calendar year.

In addition, the mill hands have won shorter hours. This may or may not mean a further reduction in production. The probability and expectation is that it will add considerably to a lower production. Therefore the amount of woolen goods probably will be much below the ordinary demands of the public.

In regard to cotton: There has not been a large cotton crop since 1914. The acreage planted this year is probably 14 less than in 1918. The seas are open now and Great Britain, France, Belgium, Spain, Switzerland and, probably Germany, will be in the market for cotton. If the foreign buying are anything near what they should be, and the crop turns out to be small, the price of cotton and cotton goods will be higher than at any time since the Civil War. There is imminent danger of the crop being small.

To raise a large crop the weather must be favorable. Also, east of the Mississippi river, there must much fertilizer used on the land. Since 1914, it has been impossible to supply all the fertilizer required. The soil needs phosphate, nitrate and potash. The absence of any one of them in the quantity requisite to a balanced ration for the soil makes the crop out turn precarious. For four years the supply of potash has been insufficient. This year it has been more plentiful but the high price of all fertilizers and the campaign to reduce the crop led to farmers using 21 per cent less fertilizern than in 1918.

Remarkable weather through August and September could overcome the reduced acreage and the lessened use of fertilizers but the chances are the other way. Unfavorable weather—and cotton is peculiarly a weather crop—would mean something like a cotton famine.

All the wool we use does not go into clothing. A lot of it goes into carpets and the other articles of manufacture. All the cotton does not go into garments or what we generally consider as clothing goods. Cotton goes in hundreds of lines of which the general public knows little. A very large amount goes into automobile tires. Another considerable amount goes into belts for harvesting machines.

General industry will demand its share of wool and cotton and, in doing so, will lessen the amount left for clothing and general furnishings for the home. Therefore, if the shortage is as acute as the situation portends, the price of cotton and woolen goods may be very high.

Cherish your last winter's overcoat.

Also your old clothes, unless they are too near the ragman's stage to be worth keeping.

Foodstuffs are going to be cheaper. But not clothes. The clothing outlook is bad until the world can produce considerably more wool and cotton than seems possible this year.

No Need For Funds To Check Enemy Trading

Washington, July 8.—To curtail restrictions on trade with Germany while the peace treaty is being considered by the Senate, Senator Fall Republican, of New Mexico, introduced today an amendment to the sundry civil appropriation bill declaring that peace "being declared," no part of the funds in the bill should be used to enforce the trading with an enemy act.

There was disagreement over the exact meaning of the amendment which would insert a provision "that the status of peace between the former imperial German government and the United States of America being declared to exist." no part of the money should be used to enforce the trading act.

Senator Fall declared that while his amendment was only "a limitation on and appropriation" it would remove the effect of a "propaganda," which he charged was being brought to bear on the Senate to ratify the treaty so that the war would be formally ended

GIVES JUDGMENT OF $25 AND COSTS

J. M. Miller Failed to Carry Out Order.

Judgment for $25 and costs was rendered against J. M. Miller in Justice H. C. Noble's court Thursday afternoon in an action for $200 brought against him by the state fire marshal's office. Miller was ordered to do certain things in regard to the old two story frame broom factory building on East Marietta street during the latter part of the winter.

When the time limit expired, he had done nothing. The fire marshal's office waited awhile and then started civil suit against him. Miller claimed he was unable to get contractors to take the job until just a week or so ago when he got the building torn down. For this reason, he asked the fire marshal to dismiss the suit. Attorney for the latter agreed to do so if Miller would pay the costs.

After a long wrangle about this, Miller threw up his hands and in substance told them to come on and hold him up just like any other highway robbery. This made the plaintiff and attorney angry and they pushed the suit through. Another case against Miller relative to an old house back of the jail was continued for one week.

JULY 1 NATIONAL BUTTERMILK DAY

Popularization of Drink Suggested by Department of Agriculture.

Washington, D. C.—July 1 is National Buttermilk Day.

Buttermilk, the United States Department of Agriculture thinks, is one of the best drinks in the world —nutritious, palatable and full of zest and vim. The man who drinks buttermilk regularly and copiously is doing a good turn for himself. That is one of the purposes of proclaiming National Buttermilk Day. The other is that the dairy industry in the United States will be encouraged.

Buttermilk Day, it is hoped, will remind many people of this drink, introduce it to others, and be the beginning of a greater consumption of buttermilk that will contribute to the health and happiness of the consumers and, at the same time, help dairy farmers to develop production.

ALSO CO-OPERATION.

To insure an ample supply of buttermilk, both for the homes and for hotels and restaurants on July 1, the Department of Agriculture requests creameries, milk plants, and other dairy establishments to co-operate in the plan to popularize the drink.

It is pointed out that, while straight buttermilk is an excellent drink, there are a number of delicious combinations. Buttermilk lemonade is obtained by adding the juice of two or three lemons to a quart of buttermilk, with sugar to taste. Buttermilk may be combined with lemon juice, orange juice or eggs and sugar for making frozen dainties.

Aside from its food and beverage qualities, buttermilk is said to possess medical qualities. Many physicians prescribe it in the treatment of certain intestinal disorders. The bacteria that brings about the chemical change by which buttermilk is produced is believed by many physicians and bacteriologists to destroy certain other organisms that in the human body, tend to hasten senility. Many prominent men drink buttermilk regularly as a tonic. One of the most widely known lecturers and writers in the United States drinks buttermilk as regularly as he brushes his teeth—and declares that he is feeling himself getting younger with every glassful.

NO FOREIGN CHEFS OR FRENCH MENUS

Hotel Men Getting Back to American Cookery.

Chicago, July 18.—No more foreign chefs. No more menu French that the average man doesn't understand. But downright, back-to-the-soil American cookery. That is the program of the American hotel of the future, according to advices received by Chicago hotel men interested in the Hotel Men's exposition to be held at the Coliseum in Chicago during the week of Aug 4.

What is American cookery, and is there such a thing distinctively? Hotel men say there is. They say that this nation has not only the best cooks in the world, but the best dishes, and the foreign cooks have disguised a great many purely American dishes under strange foreign names for the sake of maintaining their own supremacy.

HAVE BEST COOKS.

"We have the best cooks and the best cookery in the world," said John R. Dignan, president of the International Stewards' Association, under whose auspices the exposition is to be held.

"Americans like American dishes best, and they are right," he continued. "And the educated palate also likes American dishes best, even though the foreign cooks use queer names for them Take terrapin, for instance. No cook in the world can prepare it like the darky mammies of Maryland and Virginia, but the chefs of Chicago and New York copy the old southern mehtods and then stick a French name on what they serve.

"Take any grown man and what does his palate yearn for? The things that 'mother used to make', of course, and that means the things to eat that are purely American.

LOVE PIES.

"We, as a nation, love pies. Purely American. The Philadelphian, no matter where he goes, longs for 'scrapple.' A distinctively American dish. The Boston man sticks to his beans, no matter what besides. Everybody who eats fried chicken wants it 'a la Maryland,' which means southern style, despite the couple of French words The Southern man wants his 'hog and hominy.' The Kentuckian wants 'jowl and greens' We want American puddings, American beef steak, Steamed clams and oysters, also fried oysters; crabs prepared Maryland and New Orleans style; Boston brown bread, mince pie—all these things are as American as the Red Indian.

"At the hotel show we are going to prove all this. We shall have contests from all parts of the country, showing the best there is in distinctively American cookery and what it really is. Hotel men from east, west north and south have agreed to have their best cooks here to show what are the distinctive dishes of their sections and the show will be a university for the education of the American palate in things that are American and will serve, once and for all, the American cookery not only leads the world, but that it should be emphasized in hotels and homes, and as a result it will be.

WOMEN COOKS.

"In fact, the hotels are coming more and more to women cooks, and in this case it means American cooks, for they are getting American women to give the home taste to their cookery, to satisfy the wants of their patrons, who, despite all the manufactured sentiment of the foreign chefs, still yearn for the dishes of home and youth."
